Autore	Mackey Brendan (Brendan G.)
Titolo	Green carbon : the role of natural forest in carbon storage . Part 1 A green carbon account of Australia's south-eastern Eucalypt forests, and policy implications // Brendan G. Mackey [and others]
Pubbl/distr/stampa	Canberra, Australian Capital Territory : , : Australian National University E Press, , 2008
Descrizione fisica	1 online resource (48 pages) : illustrations; digital, PDF file(s)
Disciplina	577.3144
Soggetti	Carbon - Environmental aspects Forests and forestry - Environmental aspects Plants - Effect of atmospheric carbon dioxide on
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references.
Sommario/riassunto	The colour of carbon matters. Green carbon is the carbon stored in the plants and soil of natural ecosystems and is a vital part of the global carbon cycle. This report is the first in a series that examines the role of natural forests in the storage of carbon, the impacts of human land use activities, and the implications for climate change policy nationally and internationally. REDD ("reducing emissions from deforestation and degradation") is now part of the agenda for the "Bali Action Plan" being debated in the lead-up to the Copenhagen climate change conference in 2009. Currently, international rules are blind to the colour of carbon so that the green carbon in natural forests is not recognised, resulting in perverse outcomes including ongoing deforestation and forest degradation, and the conversion of extensive areas of land to industrial plantations. This report examines REDD policy from a green carbon scientific perspective. Subsequent reports will focus on issues concerning the carbon sequestration potential of commercially logged natural forests, methods for monitoring REDD, and the long term implications of forest policy and management for the global carbon cycle and climate change.

2. Record Nr.	UNISA996397601903316
Titolo	Two ordinances of the Lords and Commons assembled in Parliament [[electronic resource] ] : for the maintenance of some preaching ministers in the cities of Yorke, Durham, and Carlisle, and in the town of Newcastle upon Tyne, and town of Barwick upon Tweed, and in other towns and places therein mentioned .
Pubbl/distr/stampa	London, : Printed for John Wright ..., Decemb. 29. 1645
Descrizione fisica	[1], 6 p
Soggetti	Clergy - Legal status, laws, etc - Great Britain - 17th century Great Britain Politics and government 1625-1649 Early works to 1800
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Text in black letter. Imperfect: print show through. Reproduction of original in: Henry E. Huntington Library and Art Gallery.
Sommario/riassunto	eebo-0113

3. Record Nr.	UNINA9910299830003321
Titolo	InCIEC 2014 : Proceedings of the International Civil and Infrastructure Engineering Conference 2014 // edited by Rohana Hassan, Marina Yusoff, Anizahyati Alisibramulisi, Norliyati Mohd Amin, Zulhabri Ismail
Pubbl/distr/stampa	Singapore : , : Springer Nature Singapore : , : Imprint : Springer, , 2015
ISBN	981-287-290-6
Edizione	[1st ed. 2015.]
Descrizione fisica	1 online resource (1251 p.)
Disciplina	620 620.11 624 628 628.1 660.6
Soggetti	Civil engineering Environmental engineering Biotechnology Bioremediation Water Hydrology Building materials Civil Engineering Environmental Engineering/Biotechnology Structural Materials
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references at the end of each chapters and index.
Nota di contenuto	Timber Engineering -- Concrete Waste and Earthquake Engineering -- Fluvial And River Engineering Dynamics -- Transportation Systems, Infrastructure and Intelligent Transport -- Geotechnical Engineering -- Innovative Construction Materials & Structures -- Bioremediation and Engineering -- Synergistic Innovative Management -- Nano-Materials For Engineering.

## Sommario/riassunto

The special focus of this proceedings is to cover the areas of infrastructure engineering and sustainability management. The state-of-the-art information in infrastructure and sustainable issues in engineering covers earthquake, bioremediation, synergistic management, timber engineering, flood management and intelligent transport systems. It provides precise information with regards to innovative research development in construction materials and structures in addition to a compilation of interdisciplinary finding combining nano-materials and engineering.
