   Sommario/riassunto   This volume of Advances in Intelligent Systems and Computing
                         contains accepted papers presented at ICGEC 2014, the 8th
                         International Conference on Genetic and Evolutionary Computing. The
                         conference this year was technically co-sponsored by Nanchang
                         Institute of Technology in China, Kaohsiung University of Applied
                         Science in Taiwan, and VSB-Technical University of Ostrava. ICGEC
                         2014 is held from 18-20 October 2014 in Nanchang, China. Nanchang
                         is one of is the capital of Jiangxi Province in southeastern China,
                         located in the north-central portion of the province. As it is bounded
                         on the west by the Jiuling Mountains, and on the east by Poyang Lake, it
                         is famous for its scenery, rich history and cultural sites. Because of its
                         central location relative to the Yangtze and Pearl River Delta regions, it
                         is a major railroad hub in Southern China. The conference is intended
                         as an international forum for the researchers and professionals in all
