Sommario/riassunto	Arcosanti. Christiania. Earthaven. Findhorn. For the uninitiated, the names of modern-day intentional communities may conjure images of science fiction fantasy worlds. In reality, these modern interpretations of communal living are increasingly appealing and practical for a growing number of individuals who are seeking a different way of life.

Sommario/riassunto	The book is a collection of high-quality peer-reviewed research papers presented at International Conference on Information System Design and Intelligent Applications (INDIA 2017) held at Duy Tan University, Da Nang, Vietnam during 15-17 June 2017. The book covers a wide range of topics of computer science and information technology discipline ranging from image processing, database application, data mining, grid and cloud computing, bioinformatics and many others. The various intelligent tools like swarm intelligence, artificial intelligence, evolutionary algorithms, bio-inspired algorithms have been well applied in different domains for solving various challenging problems.
