

1. Record Nr.	UNINA9910299954703321
Titolo	Energy Management—Collective and Computational Intelligence with Theory and Applications // edited by Cengiz Kahraman, Gülgün Kayakutlu
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2018
ISBN	3-319-75690-7
Edizione	[1st ed. 2018.]
Descrizione fisica	1 online resource (548 pages)
Collana	Studies in Systems, Decision and Control, , 2198-4182 ; ; 149
Disciplina	333.79
Soggetti	Computational intelligence Energy policy Energy and state Computational Intelligence Energy Policy, Economics and Management
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	This book presents a selection of recently developed collective and computational intelligence techniques, which it subsequently applies to energy management problems ranging from performance analysis to economic analysis, and from strategic analysis to operational analysis, with didactic numerical examples. As a form of intelligence emerging from the collaboration and competition of individuals, collective and computational intelligence addresses new methodological, theoretical, and practical aspects of complex energy management problems. The book offers an excellent reference guide for practitioners, researchers, lecturers and postgraduate students pursuing research on intelligence in energy management. The contributing authors are recognized researchers in the energy research field.
