Sommario/riassunto	A glossary of words associated with Jacques Derrida accommodating the far-reaching implications of his work. This cornucopia of words and definitions intervenes at crucial points of tension across the entire range of Derrida's publications, including those published posthumously. It offers sustained expository engagement with a series of 67 key words - from Aporia to Yes - having significance throughout Derrida's thought and writing. Touching on the literary, as well as on political, aesthetic, phenomenological and psychoanalytic discourses, and tracing how Derrida's own practice of close read

Sommario/riassunto

This book is simultaneously a superb atlas and a detailed guide to all aspects of video capsule endoscopy. History, technique, performance, reading, indications, contraindications, outcomes, complications and alternative methods are described systematically by a large panel of experts. In addition, the full range of small bowel diseases, from the common to the rare, are described and illustrated using a unique and exhaustive collection of capsule endoscopy images that are accompanied by corresponding images of enteroscopy, surgery, radiology and histology whenever possible. The newest technology of colon capsule endoscopy is included and exciting potential future developments are also considered. This book will be indispensable for all who use the technique or are considering establishing a video capsule endoscopy service.
