| Autore | Miclaus Gratian Dragoslav |
| Titolo | Atlas of CT Angiography : Normal and Pathologic Findings // by Gratian Dragoslav Miclaus, Horia Ples |
| Pubbl/distr/stampa | Cham : , : Springer International Publishing : , : Imprint : Springer, , 2014 |
| ISBN | 3-319-05284-5 |
| Edizione | [1st ed. 2014.] |
| Descrizione fisica | 1 online resource (207 p.) |
| Disciplina | 616.1307572 |
| Soggetti | Radiology Cardiology Neurology Imaging / Radiology |
| Lingua di pubblicazione | Inglese |
| Formato | Materiale a stampa |
| Livello bibliografico | Monografia |
| Note generali | Description based upon print version of record. |
| Nota di contenuto | Cerebral angiography -- Carotid angiography -- Thoracic angiography -- Coronary angiography -- Abdominal angiography -- Peripheral angiography. |
| Sommario/riassunto | This atlas presents normal and pathologic findings observed on CT angiography with 3D reconstruction in a diverse range of clinical applications, including the imaging of cerebral, carotid, thoracic, coronary, abdominal, and peripheral vessels. The superb illustrations display the excellent anatomic detail obtained with CT angiography and depict the precise location of affected structures and lesion severity. Careful comparisons between normal imaging features and pathologic appearances will assist the reader in image interpretation and treatment planning, and the described cases include some very rare pathologies. In addition, the technical principles of the modality are clearly explained and guidance provided on imaging protocols. This atlas will be of value both to those in training and to more experienced practitioners within not only radiology but also cardiovascular surgery, neurosurgery, cardiology, and neurology. |
