

1. Record Nr.	UNINA9910300067203321
Titolo	Tips and Tricks in Endocrine Surgery // edited by John C. Watkinson, David M. Scott-Coombes
Pubbl/distr/stampa	London : , : Springer London : , : Imprint : Springer, , 2014
ISBN	1-4471-2146-5
Edizione	[1st ed. 2014.]
Descrizione fisica	1 online resource (306 p.)
Disciplina	610 616.4 617 617.44
Soggetti	Surgery Endocrinology General Surgery Endocrinology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	1. Adrenal and Paraganglionoma: Presentation, Assessment and Diagnosis -- 2. Cushing's Disease and Syndrome -- 3. Management of Conn's Syndrome -- 4. Pheochromocytoma and Paraganglioma -- 5. Adrenocortical Carcinoma and Open Adrenalectomy -- 6. Adrenal Metastasectomy -- 7. Minimally Invasive Adrenal Surgery -- 8. Diagnosis and Pre-Operative Assessment (Algorithms) for Pancreatic NETs -- 9. Localisation of Pancreatic and Gastrointestinal NETs -- 10. Surgery for Pancreatic Neuroendocrine Neoplasms (pNEN) -- 11. Gastrointestinal Neuroendocrine Tumour (NET) Surgery -- 12. Assessment of Goitre -- 13. Surgery for Benign Thyroid Disease -- 14. Management of the Indeterminate Thyroid Nodule -- 15. Differentiated Thyroid Cancer -- 16. Medullary Thyroid Cancer -- 17. Anaplastic Thyroid Cancer -- 18. Thyroidectomy Technique -- 19. Surgery for Thyrotoxicosis -- 20. Retrosternal Goitre -- 21. Lymph Node Surgery for Thyroid Cancer -- 22. Complications in Thyroid Surgery and How to Avoid Them -- 23. Revision Thyroid Surgery -- 24. Extended Surgery for Extra-Thyroidal Disease Invasion -- 25. Managing the Airway in

Thyroid Surgery -- 26. Voice Change following Thyroid and Parathyroid Surgery -- 27. Post-Operative Management of Thyroid Cancer -- 28. Recent Advances in Thyroid Surgery -- 29. Outcomes and Audit in Thyroid Surgery -- 30. Consent and Litigation in Thyroid Surgery -- 31. Assessment of Hyperparathyroidism -- 32. Parathyroidectomy: Indications for Surgery and Localisation -- 33. Surgery for Primary Hyperparathyroidism -- 34. Minimally Invasive Parathyroidectomy -- 35. Re-Operative Parathyroid Surgery -- 36. Renal Hyperparathyroidism -- 37. Presentation and Biochemical Assessment of Pituitary Disease -- 38. Localisation and Imaging of Pituitary Tumours -- 39. Diagnostic Work-Up and Non-Surgical Management of Pituitary Disease -- 40. Hypophysectomy.

## Sommario/riassunto

Endocrine surgery is a highly specialised field due to the technical nature of the procedures and associated risks. Despite this, endocrine operations sometimes fall to the general surgeon to deploy. *Tips and Tricks in Endocrine Surgery* aims to provide a concise summary of all aspects of endocrine surgery, taking into account the latest evidence and current expert opinion. The book comprises five sections covering the major endocrine organs and systems, each chapter focuses on one endocrine disorder and provides guidelines on the techniques, considerations and aspects of surgical care specific to each procedure. This book is an invaluable quick-reference resource that will appeal to higher surgical trainees in general surgery, endocrine surgery, ENT surgery and neurosurgery. Core surgical trainees preparing for examinations and consultants wishing to refresh their knowledge of the surgical management of endocrine disorders will also find this book useful.
