Record Nr.	UNINA9910300070003321
Titolo	Endocrinology and diabetes : a problem-oriented approach / / Francisco Bandeira [and four others], editors
Pubbl/distr/stampa	New York : , : Springer, , 2014
ISBN	1-4614-8684-X
Edizione	[1st ed. 2014.]
Descrizione fisica	1 online resource (xvi, 557 pages) : illustrations (some color)
Collana	Gale eBooks
Disciplina	610 616 616.12 616.4
Soggetti	Diabetes - Endocrine aspects
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Genetic testing in endocrinology Thyrotoxicosis Hypothyroidism Thyroid nodules and cancer Sellar mass Hyperprolactinemia Acromegaly hypopituitarism Cushing's syndrome Adrenal failure Adrenal incidentaloma Hirsutism and virilization Menopause Male hypogonadism Short stature Delayed puberty Precocious puberty Hypercalcemia Hypocalcemia Vitamin D deficiency Osteoporosis Metabolic bone diseases other than osteoporosis Classification and laboratory Diagnosis Oral therapy of type 2 diabetes GLP-1 receptor agonists in the treatment of type 2 diabetes Therapy with insulin Ketoacidosis and hyperosmolar non-ketotic syndrome Neuropathy Nephropathy Retinopathy Carbohydrate counting Dyslipidemia Medical management of obesity Bariatric surgery.
Sommario/riassunto	Endocrinology, and diabetes care in particular, is a dynamic field where clinicians must translate new evidence into clinical practice at a rapid pace. Designed in an engaging, case-based format, Endocrinology and Diabetes: A Problem Oriented Approach offers a wide range of thought-provoking case studies that reflect contemporary, challenging, hands-on clinical care. Further, by providing a list of specific clinical problems, this format offers the reader a more convenient and pointed

1.

way to solve precise clinical problems in a timely manner. Developed by a renowned, international group of experts, this comprehensive title covers the most common clinical problems in endocrinology and diabetes and should be of great interest to endocrinologists, diabetologists, internal medicine physicians, family physicians, fellows, and residents.
