

1. Record Nr.	UNINA9910640899303321
Titolo	Microtubules, in vitro / edited by Leslie Wilson, John J. Correia
Pubbl/distr/stampa	Burlington (MA) [etc.], : Elsevier Academic press, c2010
ISBN	9780123748157
Descrizione fisica	XXI, 700 p., [30] p. di tav. : ill. ; 26 cm.
Disciplina	571.654
Soggetti	Microtubuli-citoscheletro
Locazione	SC1
Collocazione	BSF-MET.CEL-95
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
2. Record Nr.	UNINA9910300079503321
Autore	Rana Abdul Qayyum
Titolo	Differential Diagnosis of Movement Disorders in Clinical Practice / / by Abdul Qayyum Rana, Peter Hedera
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2014
ISBN	3-319-01607-5
Edizione	[1st ed. 2014.]
Descrizione fisica	1 online resource (121 p.)
Disciplina	616.8 616.83
Soggetti	Neurology Neurology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Preface; Contents; Chapter 1: Tremor; 1.1 Introduction; 1.1.1

Classification; According to Position of the Body Part Affected by Tremor; According to the Regions of Body Affected; According to the Frequency of Tremor; According to the Amplitude of Tremor; According to the Etiology of Tremor; 1.1.2 Description; 1.2 Frequencies of Various Tremor Syndromes; 1.2.1 Investigations; 1.2.2 Causes; 1.3 Essential Tremor; 1.3.1 Etiology and Pathogenesis; 1.3.2 Clinical Features; 1.3.3 Characteristics of Essential Tremor; 1.3.4 Diagnosis of Essential Tremor; 1.3.5 Treatment of Essential Tremor  
Medicinal TreatmentBeta-Blockers; Primidone; Other Therapies; Surgical Treatments; 1.4 Enhanced Physiological Tremor; 1.5 Parkinson's Disease; 1.5.1 Etiology and Pathophysiology of Parkinson's Disease; 1.5.2 Nonmotor Symptoms of Parkinson's Disease; 1.5.3 Treatment of Parkinson's Disease; 1.6 Pharmacological Treatments; 1.7 Rehabilitation Treatment of Parkinson's Disease; 1.8 Surgical Treatments of Parkinson's Disease; 1.9 Cerebellar Tremor; 1.10 Dystonic Tremor; 1.11 Task-Specific Tremor; 1.12 Medication-Induced Tremor; 1.12.1 Frequent Causes of Drug-Induced Tremors and Parkinsonism  
1.12.2 Infrequent Causes of Drug-Induced Tremors and Parkinsonism1.13 Primary Orthostatic Tremor; 1.14 Holmes Tremor; 1.15 Alcoholic Tremor; 1.16 Fragile X Tremor/Ataxia Syndrome (FTAX); 1.17 Psychogenic Tremor; Bibliography; Chapter 2: Dystonia; 2.1 Classification; 2.1.1 Special Features of Dystonia; 2.2 Investigations; 2.3 Causes; 2.3.1 Primary Idiopathic Torsion Dystonia (DYT-1); 2.3.2 Primary Idiopathic Dystonia (DYT-6); 2.3.3 Dopa-Responsive Dystonia; 2.3.4 Writer's Dystonia; 2.3.5 Musician's Dystonia; 2.3.6 Spasmodic Dystonia; 2.3.7 Blepharospasm; 2.3.8 Cervical Dystonia  
PathophysiologyCommonly Involved Muscle Groups; Diagnosis; Staging of Cervical Dystonia; Treatment of Cervical Dystonia; Medical Treatments; Chemodenervation with Botulinum Toxin; Medications; Surgical Treatments of Cervical Dystonia; 2.3.9 Neurodegenerative Disorders Associated with Limb Dystonia; 2.3.10 Psychogenic Dystonia; 2.3.11 Pseudodystonia; Bibliography; Chapter 3: Chorea; 3.1 Classification; 3.2 Investigations; 3.3 Differential Diagnosis of Phenomenology of Chorea; 3.4 Causes; 3.4.1 Genetic Causes of Chorea; Huntington's Disease; Management  
Dentatorubropallidolysian Atrophy (DRPLA)Neuroacanthocytosis; McLeod Syndrome; Benign Hereditary Chorea; Wilson's Disease; 3.4.2 Nongenetic Causes of Chorea; Sydenham Chorea; Vascular Chorea; Other Autoimmune Chorea; Drug-Induced Chorea; Chorea Due to Metabolic Causes; Chorea Due to Infectious Causes; Bibliography; Chapter 4: Tics; 4.1 Classification; 4.2 General Presentations; 4.3 Investigations; 4.4 Causes; 4.4.1 Tourette Syndrome; Bibliography; Chapter 5: Myoclonus; 5.1 Classification; 5.1.1 Classification Based upon Site of Origin; Cortical Myoclonus; Subcortical Myoclonus  
Spinal Myoclonus

#### Sommario/riassunto

This practical, pocket-sized, quick reference book is for those who need to manage movement disorder patients without the immediate help of a movement disorder neurologist. Only the most pertinent information is covered. This book is divided into five chapters covering the common phenomenology of movement disorders and includes tremor, dystonia, chorea, myoclonus, and tics. The etiology, pathophysiology, symptoms and treatments of these conditions are briefly reviewed, with the emphasis on the most common practical challenges encountered with these patients. *Differential Diagnosis of Movement Disorders in Clinical Practice* is aimed at postgraduates training in neurology, emergency care physicians, internists and primary care providers. Medical students will also find this book

particularly helpful during their neurology rotations.
