

1. Record Nr.	UNINA9910300086703321
Autore	Gottlieb Klaus
Titolo	Diagnostic Endosonography : A Case-based Approach / / by Klaus Gottlieb, Gustavo Marino
Pubbl/distr/stampa	Berlin, Heidelberg : , : Springer Berlin Heidelberg : , : Imprint : Springer, , 2014
ISBN	3-642-39118-4
Edizione	[1st ed. 2014.]
Descrizione fisica	1 online resource (472 p.)
Disciplina	610 616.07543 616.07548 616.0757
Soggetti	Gastroenterology Radiology Nuclear medicine Ultrasound Nuclear Medicine Imaging / Radiology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	General Topics and Anatomy -- Esophagus -- Mediastinum -- Stomach -- Duodenum -- Gallbladder -- Liver and Bile Ducts -- Peritoneum and Retroperitoneum -- Pancreas -- Celiac Vessels -- Spleen and Adrenals -- Colon, Rectum and Anus.
Sommario/riassunto	The available textbooks on endoscopic ultrasound (EUS) typically focus on technique and interpretation of commonly observed images and scenarios and are aimed primarily at trainees. However, independent practitioners of EUS are often challenged by unusual cases which they are expected to handle competently despite the absence of authoritative guidance. The Diagnostic Endosonography aims to fill this gap by presenting carefully selected cases that will expand the practitioner's knowledge base and cover important clinical challenges. The case material is organized principally according to anatomic site. Approximately 170 case reports are included, each of which is

accompanied by an average of three to five high-quality EUS images; in addition, CT and PET scans are shown when appropriate. For each case, the case description is followed by helpful “teaching points” as well as up-to-date literature references and suggestions for future research.
