

1. Record Nr.	UNINA9910300089903321
Titolo	Transesophageal echocardiography for congenital heart disease // Pierre C. Wong, Wanda C. Miller-Hance, editors
Pubbl/distr/stampa	London : , : Springer, , 2014
ISBN	1-84800-064-2
Edizione	[1st ed. 2014.]
Descrizione fisica	1 online resource (xlix, 538 pages) : illustrations (some color)
Collana	Gale eBooks
Disciplina	610 616.0757 616.1 616.1/207543
Soggetti	Transesophageal echocardiography Congenital heart disease - Imaging
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references at the end of each chapters and index.
Nota di contenuto	Science of Ultrasound and Echocardiography -- Instrumentation -- Indications and Guidelines for Performance of Transesophageal Echocardiography in Congenital Heart Disease and Pediatric Acquired Heart Disease -- Structural Evaluation of the Heart by Transesophageal Echocardiography -- Functional Evaluation of the Heart by Transesophageal Echocardiography -- Systemic and Pulmonary Venous Anomalies -- Atrial Abnormalities and Atrial Septal Defects -- Atrioventricular Septal Defects and Atrioventricular Valve Anomalies -- Ventricular Septal Defects -- Evaluation of the Single Ventricle -- Outflow Tract Anomalies -- Evaluation of Conotruncal Abnormalities -- Great Artery and Other Vascular Abnormalities -- Congenital Coronary Artery Anomalies -- Intraoperative and Postoperative Transesophageal Echocardiography in Congenital Heart Disease -- Additional Applications of Transesophageal Echocardiography -- Applications of Transesophageal Echocardiography in the Cardiac Catheterization Laboratory -- Transesophageal Echocardiography in Adults with Congenital Heart Disease -- Transesophageal Three-Dimensional Echocardiography in Congenital Heart Disease -- Clinical Applications of Three-Dimensional Transesophageal Echocardiography in Congenital

Transesophageal echocardiography (TEE) has played an instrumental role among the many advances in the field of congenital heart disease (CHD) that have resulted in successful and continually improving clinical outcomes, today enabling most affected infants and children to live well into adulthood. Ongoing evolution of the technology (including three-dimensional TEE) promises to maintain this imaging approach at the forefront of clinical practice. Competent performance of TEE in the patient with CHD, however, requires a number of essential technical and cognitive skills, in addition to a solid understanding of the broad spectrum of congenital pathology. Thus, the important need for a comprehensive reference on the subject to assist specialists who care for these patients. Transesophageal Echocardiography for Congenital Heart Disease represents a unique work, the only textbook of its kind that focuses specifically upon the applications of TEE in CHD. In each chapter, the contributors—highly regarded specialists and leaders in the field—provide practical and instructive information on the many different aspects of CHD evaluation by TEE. The textbook is extensively supplemented with over 700 figures/illustrations and more than 400 high quality videos (available online). This reference will prove an invaluable resource for those who use TEE in the care of both children and adults with CHD, whether they be cardiologists, surgeons, anesthesiologists, intensivists, sonographers, or trainees wishing to obtain basic knowledge or advance their understanding of the field.

2.	Record Nr.	UNINA9910906999903321
	Autore	De Medici, Pasquale
	Titolo	Esperienze sopra la coltivazione di alcune piante da essenza nella piana di S. Eufemia / Pasquale De Medici
	Pubbl/distr/stampa	Portici, : Università degli studi di Napoli "Federico II", 1951
	Descrizione fisica	47 p., [6] carte di tav. : fotografie ; 29 cm
	Disciplina	641.3382
	Locazione	FAGBC
	Collocazione	A AGR 1915
	Lingua di pubblicazione	Italiano
	Formato	Materiale a stampa
	Livello bibliografico	Monografia
3.	Record Nr.	UNIORUON00252334
	Autore	WEIPERT, Reinhard
	Titolo	Classical Arabic philology and poetry : A bibliographical handbook of important editions from 1960 to 2000 / By Reinhard Weipert
	Pubbl/distr/stampa	Leiden [etc.], : Brill, 2002
	ISBN	90-04-12342-3
	Descrizione fisica	xiv, 274 p. ; 25 cm
	Classificazione	ARA GEN B VI
	Disciplina	892.709002
	Soggetti	FILOLOGIA ARABA - Bibliografie Letteratura araba classica Letteratura araba classica - Bibliografia
	Lingua di pubblicazione	Inglese
	Formato	Materiale a stampa
	Livello bibliografico	Monografia
