

1. Record Nr.	UNINA9910300119803321
Autore	Sedrakyan Hayk
Titolo	The Stair-Step Approach in Mathematics / / by Hayk Sedrakyan, Nairi Sedrakyan
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2018
ISBN	3-319-70632-2
Edizione	[1st ed. 2018.]
Descrizione fisica	1 online resource (XIX, 531 p. 11 illus.)
Collana	Problem Books in Mathematics, , 0941-3502
Disciplina	510
Soggetti	Algebra Combinatorial analysis Number theory Combinatorics Number Theory
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Geometry and Trigonometry -- Number Theory -- Algebra -- Calculus -- Combinatorics -- Hints -- Solutions -- Answers.
Sommario/riassunto	This book is intended as a teacher's manual and as an independent-study handbook for students and mathematical competitors. Based on a traditional teaching philosophy and a non-traditional writing approach (the stair-step method), this book consists of new problems with solutions created by the authors. The main idea of this approach is to start from relatively easy problems and "step-by-step" increase the level of difficulty toward effectively maximizing students' learning potential. In addition to providing solutions, a separate table of answers is also given at the end of the book. A broad view of mathematics is covered, well beyond the typical elementary level, by providing more in depth treatment of Geometry and Trigonometry, Number Theory, Algebra, Calculus, and Combinatorics.
