| ISBN | 981-13-2886-2 |
| Edizione | [1st ed. 2018.] |
| Descrizione fisica | 1 online resource (XI, 679 p. 9 illus.) |
| Disciplina | 515 |
| Soggetti | Mathematical analysis Analysis (Mathematics) Analysis |
| Lingua di pubblicazione | Inglese |
| Formato | Materiale a stampa |
| Livello bibliografico | Monografia |
| Nota di contenuto | Chapter 1. Holomorphic and Harmonic Functions -- Chapter 2. Conformal Mapping -- Chapter 3. Analytic Continuation -- Chapter 4. Special Functions. |
| Sommario/riassunto | This is the second volume of the two-volume book on real and |

complex analysis. This volume is an introduction to the theory of holomorphic functions. Multivalued functions and branches have been dealt carefully with the application of the machinery of complex measures and power series. Intended for undergraduate students of mathematics and engineering, it covers the essential analysis that is needed for the study of functional analysis, developing the concepts rigorously with sufficient detail and with minimum prior knowledge of the fundamentals of advanced calculus required. Divided into four chapters, it discusses holomorphic functions and harmonic functions, Schwarz reflection principle, infinite product and the Riemann mapping theorem, analytic continuation, monodromy theorem, prime number theorem, and Picard's little theorem. Further, it includes extensive exercises and their solutions with each concept. The book examines several useful theorems in the realm of real and complex analysis, most of which are the work of great mathematicians of the 19th and 20th centuries.

Sommario/riassunto

This annual report presents an overview of the development of China's special economic zones in 2021, including reform pilot zones and some new special zones, from the perspective of the overall national development strategic planning. It takes the development status, comparative analysis and policy suggestions of the special zones as the starting point, summarizes and analyzes the transformation problems, carbon production and sustainable development problems, scientific and technological innovation problems, social security problems, employment service problems, financial system reform problems, cultural industry problems, and puts forward suggestions for development.
