

1. Record Nr.	UNINA9910300160403321
Autore	Cordeiro Gauss M
Titolo	An introduction to Bartlett correction and bias reduction / / by Gauss M. Cordeiro, Francisco Cribari-Neto
Pubbl/distr/stampa	Berlin, Heidelberg : , : Springer Berlin Heidelberg : , : Imprint : Springer, , 2014
ISBN	3-642-55255-2
Edizione	[1st ed. 2014.]
Descrizione fisica	1 online resource (113 p.)
Collana	SpringerBriefs in Statistics, , 2191-544X
Disciplina	330.015195
Soggetti	Statistics Econometrics Statistical Theory and Methods Statistics for Business, Management, Economics, Finance, Insurance
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	Preface -- Likelihood-Based Inference and Finite-Sample Corrections: A Brief Overview -- Bartlett Corrections and Bootstrap Testing Inference -- Bartlett-Type Corrections -- Analytical and Bootstrap Bias Corrections -- Supplementary Material -- Glossary.
Sommario/riassunto	This book presents a concise introduction to Bartlett and Bartlett-type corrections of statistical tests and bias correction of point estimators. The underlying idea behind both groups of corrections is to obtain higher accuracy in small samples. While the main focus is on corrections that can be analytically derived, the authors also present alternative strategies for improving estimators and tests based on bootstrap, a data resampling technique, and discuss concrete applications to several important statistical models.
