

1. Record Nr.	UNINA9910300168803321
Titolo	Complex Primary and Revision Total Knee Arthroplasty : A Clinical Casebook / / edited by Bryan D. Springer, Brian M. Curtin
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2015
ISBN	3-319-18350-8
Edizione	[1st ed. 2015.]
Descrizione fisica	1 online resource (181 p.)
Disciplina	610 616.7 617.1027
Soggetti	Orthopedics Sports medicine Sports Medicine
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references at the end of each chapters and index.
Nota di contenuto	Complex Primary Total Knee Arthroplasty: Management of Varus Knee -- Complex Primary Total Knee Arthroplasty: Management of Valgus Knee -- Complex Primary Total Knee Arthroplasty: Management of Flexion Contracture -- Complex Primary Total Knee Arthroplasty: Management of Previous Hardware (Posttraumatic OA) -- Complex Primary Total Knee Arthroplasty: Management of Extra-Articular Deformity -- Complex Primary Total Knee Arthroplasty: Management of Complex Skin Incisions -- Periprosthetic Infection: Management of Early Postoperative Infection -- Periprosthetic Infection: Management of Late Acute Hematogenous Infection -- Periprosthetic Infection: Management of Chronically Infected Total Knee Arthroplasty -- Revision Total Knee Arthroplasty: Management of Deficient Extensor Mechanism -- Revision Total Knee Arthroplasty: Management of Periprosthetic Femur Fracture Around Total Knee Arthroplasty -- Revision Total Knee Arthroplasty: Management of Bone Loss -- Revision Total Knee Arthroplasty: Management of Ligamentous Instability.
Sommario/riassunto	Comprised exclusively of clinical cases covering complex primary and revision total knee arthroplasty, this concise, practical casebook will

provide orthopedic surgeons with the best real-world strategies to properly manage the more complicated forms of knee replacement they may encounter. Each chapter is a case that opens with a unique clinical presentation, followed by a description of the diagnosis, assessment and management techniques used to treat it, as well as the case outcome and clinical pearls and pitfalls. Cases included illustrate different management strategies for primary knee arthroplasty, including the varus and valgus knee, flexion contracture and extra-articular deformity, as well as periprosthetic infection and revision total knee arthroplasty, including deficient extensor mechanism, periprosthetic femur fracture and ligamentous instability. Pragmatic and reader-friendly, Complex Primary and Revision Total Knee Arthroplasty: A Clinical Casebook will be an excellent resource for orthopedic surgeons confronted with a challenging knee joint replacement.
