

1. Record Nr.	UNINA9910300169103321
Titolo	Ultrasound-guided Musculoskeletal Procedures : The Lower Limb // edited by Luca Maria Sconfienza, Davide Orlandi, Enzo Silvestri
Pubbl/distr/stampa	Milano : , : Springer Milan : , : Imprint : Springer, , 2015
ISBN	88-470-5764-7
Edizione	[1st ed. 2015.]
Descrizione fisica	1 online resource (109 p.)
Disciplina	610
Soggetti	Interventional radiology Rheumatology Orthopedics Radiology Sports medicine Rehabilitation medicine Interventional Radiology Ultrasound Sports Medicine Rehabilitation Medicine
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di contenuto	Part III : The Ankle
Sommario/riassunto	This handbook is a practical, easy-to-use reference that offers step-by-step instruction on ultrasound-guided interventional procedures for treatment of musculoskeletal pain of the lower limb. Each chapter is clearly structured and starts by offering a brief but comprehensive description of the disease to be treated that covers aspects such as epidemiology, etiology, clinical presentation and ultrasound diagnosis. The equipment and drugs needed for each interventional procedure are listed and the procedure itself is then described in detail. Explanatory images and easy-to-read schemes ensure that the reader will be able to follow procedures without difficulty, and helpful practical tips and tricks are highlighted for use in daily clinical routine. This is the sister volume to the previously published Ultrasound-Guided Musculoskeletal
