

1. Record Nr.	UNINA9910300171003321
Titolo	Fractures of the Proximal Humerus // edited by Peter Biberthaler, Chlodwig Kirchhoff, James P. Waddell
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2015
ISBN	3-319-20300-2
Edizione	[1st ed. 2015.]
Descrizione fisica	1 online resource (250 p.)
Collana	Strategies in Fracture Treatments, , 2364-8295
Disciplina	617.572059
Soggetti	Orthopedics
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references at the end of each chapters and index.
Nota di contenuto	Part I : Basics -- Part II: Fracture morphology and injury pattern.- Part III: Preoperative considerations -- Part IV: Conservative Treatment -- Part V: Surgical Management -- Part VI: Current standards and future trends in arthroscopy -- Part VII: Pathologic Fractures -- Part VIII: Postoperative Care. .
Sommario/riassunto	In this book fractures of the proximal humerus are examined in detail, with an overview of fracture morphology, injury pattern, preoperative considerations, conservative treatment, surgical management and postoperative care. It is organized anatomically, with a clear structure based on the most recent scientific data to allow surgeons to quickly access key information, practical aspects, pearls and pitfalls. The book is written by a group of experts from the Association for the Rationale Treatment of Fractures (ARTOF) who aim to provide an independent, unbiased summary of proximal humerus fracture treatments to improve clinical outcomes. Trauma and orthopaedic surgeons worldwide who are searching for current knowledge of new implants, therapeutic strategies and advancements will be able to quickly and accurately apply the information from this book to provide the best possible care for their patients.
