Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2015
ISBN	3-319-17993-4
Edizione	[1st ed. 2015.]
Descrizione fisica	1 online resource (254 p.)
Disciplina	610
Soggetti	Oncology Internal medicine Rectum—Surgery Oncology Internal Medicine Colorectal Surgery
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references at the end of each chapters.
Nota di contenuto	Anatomy and Histology -- Colon polyps and treatment of polyps. - Pathology -- Colonoscopy -- Sedation and Anesthesia during Colonoscopy -- The Relationship between polyps and colorectal cancers -- Risk Factors for Colorectal Cancers -- Prevention of Colon Cancer and Early Diagnosis -- Early Treatment.
Sommario/riassunto	This book explains clearly the nature of colon polyps and their relationship with colorectal cancer, which is among the three most common cancers in both men and women. Up-to-date information is provided on anatomy, pathology, types of polyp and their treatment, and the performance of colonoscopy. Particular attention is devoted to the risk factors for development of colorectal cancer, with detailed guidance on its prevention and early diagnosis and treatment. While the book is primarily intended for medical specialists and students, a deliberate and consistent effort has been made to use plain language that will enable other interested persons, including patients, to understand all aspects of the subject.
