

1. Record Nr.	UNINA9910300181603321
Titolo	Atlas of Imaging Anatomy // edited by Lucio Olivetti
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2015
ISBN	3-319-10750-X
Edizione	[1st ed. 2015.]
Descrizione fisica	1 online resource (279 p.)
Disciplina	611 616.07/543
Soggetti	Radiology Human anatomy Imaging / Radiology Anatomy
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	Brain -- Spine -- Head and neck -- Breast -- Chest -- Mediastinum and heart -- Abdominal cavity, peritoneum, and retroperitoneum -- Gastrointestinal tract -- Liver, biliary tract, and pancreas -- Urinary tract -- Male pelvis -- Female pelvis -- Joints. .
Sommario/riassunto	This book is designed to meet the needs of radiologists and radiographers by clearly depicting the anatomy that is generally visible on imaging studies. It presents the normal appearances on the most frequently used imaging techniques, including conventional radiology, ultrasound, computed tomography, and magnetic resonance imaging. Similarly, all relevant body regions are covered: brain, spine, head and neck, chest, mediastinum and heart, abdomen, gastrointestinal tract, liver, biliary tract, pancreas, urinary tract, and musculoskeletal system. The text accompanying the images describes the normal anatomy in a straightforward way and provides the medical information required in order to understand why we see what we see on diagnostic images. Helpful correlative anatomic illustrations in color have been created by a team of medical illustrators to further facilitate understanding.
