

1. Record Nr.	UNINA9910300183503321
Titolo	Neuropsychiatric Symptoms of Movement Disorders // edited by Heinz Reichmann
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer , 2015
ISBN	3-319-09537-4
Edizione	[1st ed. 2015.]
Descrizione fisica	1 online resource (306 p.)
Collana	Neuropsychiatric Symptoms of Neurological Disease, , 2196-2898
Disciplina	610 616.8 616.89
Soggetti	Neurology Psychiatry
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Depression, Apathy, Anhedonia, Fatigue in Parkinson's Disease -- Mild Cognitive Impairment in Parkinson's Disease -- Parkinson's Disease Dementia -- Impulse Control Disorders -- Influence of Dietary Constituents on Motor and Non-Motor Symptoms in Parkinson's Disease -- Psychosis in Parkinson's Disease -- Neuropsychiatric Manifestations in Atypical Parkinsonian Syndromes -- Neuropsychiatric Disturbances in Dystonia -- Depression in Huntington's Disease -- Cognitive Impairment and Dementia (Mild or Major Neurocognitive Disorder) in Huntington's Disease -- Tics -- Wilson's Disease -- Ataxia.
Sommario/riassunto	This is an up-to-date, comprehensive review of the neuropsychiatry of patients with movement disorders, i.e. Parkinson's disease, Huntington's disease, dystonia and others, by active authorities in the field, with an emphasis on diagnostic and management issues. This book includes critical appraisal of the methodological aspects and limitations of the current research on the neuropsychiatry of movement disorders and on unanswered questions/controversies. Symptomatology and pharmacological aspects of management are discussed, to provide robust information on drug dosages, side effects and interaction, in order to enable the reader to manage these patients more safely.

Illustrative cases provide real life scenarios that are clinically relevant and engaging to read. Neuropsychiatric Symptoms of Movement Disorders is aimed at neurologists, movement disorder specialists and psychiatrists, and will also be of interest to intensive care doctors, psychologists and neuropsychologists, research and specialist nurses, clinical researchers and methodologists.
