

1. Record Nr.	UNINA9910300184803321
Titolo	Clinical Dermatology Trials 101 : A Primer for Dermatologists / / edited by Adnan Nasir
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2015
ISBN	3-319-09027-5
Edizione	[1st ed. 2015.]
Descrizione fisica	1 online resource (355 p.)
Disciplina	610 616.5
Soggetti	Dermatology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references at the end of each chapters and index.
Nota di contenuto	Front Matter -- History and Background / Adnan Nasir -- General Clinical Trials / Aída Lugo-Somolinos, Erika Hanami, Matthew Overton -- Dermatologic Clinical Trials: A Practical Approach / Shalini V. Mohan, Anne Lynn S. Chang -- Device Clinical Trials / Todd E. Schlesinger -- Practical Tips / Ella Grach -- Budgets and Contracts / Ella Grach -- Legal Issues Related to Human Subjects for Research / Margarita S. Lolis, David J. Goldberg -- Ethics / Kevin Yang, Anil Kurian, Benjamin Barankin -- Clinical Research in Pediatric Dermatology / Christine R. Totri, Lawrence F. Eichenfield -- Statistics / Enzo Emanuele -- Photography / Adam Blechman, Anar Mikailov -- The Regulatory Landscape / Adnan Nasir -- Industry / Adnan Nasir -- Societal Perspective / Adnan Nasir -- Opportunites in Clinical Research: Take the Initiative / Adnan Nasir.
Sommario/riassunto	Clinical Dermatology Trials 101 provides dermatologists with a handbook that allows them to become familiar with all aspects of clinical trials. Everything from obtaining the necessary tools and equipment, complying with local, federal, and international guidelines and regulations, and hiring and training staff for the safe and up-to-date conduct of dermatology clinical trials is covered. Written by leading experts in the field, Clinical Dermatology Trials 101 is the only clinical trial how-to available for dermatologists. With skin disease

affecting nearly seventy percent of the population over a lifetime, and the rate of development of new drugs and devices for dermatologic use increasing at an exponential rate, there is a tremendous need for training and developing dermatology clinical research facilities to expedite the translation of basic and applied research, from bench to bedside. This is useful for practicing dermatologists, academic dermatologists, dermatology residents, clinical research fellows, dermatology fellows, research scientists, industry dermatologists, and medical students.
