

1. Record Nr.	UNINA9910300186503321
Autore	Rongioletti Franco
Titolo	Rare Malignant Skin Tumors // by Franco Rongioletti, Irina Margaritescu, Bruce R Smoller
Pubbl/distr/stampa	New York, NY : , : Springer New York : , : Imprint : Springer, , 2015
ISBN	1-4939-2023-5
Edizione	[1st ed. 2015.]
Descrizione fisica	1 online resource (302 p.)
Disciplina	610 616.07 616.5 616994
Soggetti	Pathology Oncology Dermatology Oncology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Adenoid (Acantholytic) Squamous Cell Carcinoma -- Clear cell and signet ring cell squamous carcinoma -- Squamous cell carcinoma with mucinous metaplasia -- Adenosquamous cell carcinoma -- Mucoepidermoid carcinoma -- Carcinosarcoma -- Lymphoepithelioma-like carcinoma -- Fibroepithelioma of Pinkus -- Basal Cell Carcinoma with Matrical Differentiation -- Trichoblastic Carcinoma -- Malignant proliferating trichilemmal tumor -- Trichilemmal carcinoma -- Pilomatrix carcinoma -- Sebaceous gland carcinoma -- Primary cutaneous apocrine adenocarcinoma -- Extramammary Paget's Disease -- Primary Cutaneous Adenoid Cystic Carcinoma -- Malignant mixed tumor of skin -- Hidradenocarcinoma -- Malignant cylindroma -- Malignant Eccrine Spiradenoma -- Microcystic adnexal carcinoma -- Syringoid Eccrine Carcinoma -- Digital papillary adenocarcinoma -- Porocarcinoma -- Signet-ring cell carcinoma of the eyelid/Histiocytoid variant of eccrine sweat gland carcinoma of the eyelid -- Primary mucinous carcinoma of the skin -- Endocrine mucin-producing sweat gland carcinoma -- Low-Grade Fibromyxoid Sarcoma --

Myxofibrosarcoma -- Fibrosarcoma -- Dermatofibrosarcoma protuberans -- Malignant fibrous histiocytoma(pleomorphic undifferentiated sarcoma) -- Epithelioid sarcoma -- Composite Hemangioendothelioma -- Epithelioid hemangioendothelioma -- Kaposiform Hemangioendothelioma -- Retiform Hemangioendothelioma -- Pseudomyogenic Hemangioendothelioma -- Spindle cell liposarcoma -- Myxoid liposarcoma -- Cutaneous Leiomyosarcoma -- Primary Cutaneous Rhabdomyosarcoma -- Malignant rhabdoid tumour -- Primary cutaneous extraskeletal osteosarcoma -- Desmoplastic melanoma -- Signet Ring Cell Melanoma -- Myxoid melanoma -- Rhabdoid melanoma -- Balloon cell melanoma -- Minimal Deviation Melanoma/Nevoid Melanoma -- Spitzoid melanoma -- Nested melanoma of the elderly -- Malignant blue nevus -- Clear cell sarcoma of soft tissue (Malignant melanoma of soft tissue) -- Merkel cell carcinoma -- Primary cutaneous Ewing sarcoma/primitive neuroectodermal tumor -- Malignant Peripheral Nerve Sheath Tumor -- Rare Variants of Mycosis Fungoides: Folliculotropic Mycosis -- Rare Variants of Mycosis Fungoides: Granulomatous slack skin variant of mycosis fungoides -- Rare Variants of Mycosis Fungoides: Localized pagetoid reticulosis (Woringer-Kolopp type) -- Rare Variants of Mycosis Fungoides: Syringotropic mycosis fungoides -- Adult T-cell lymphoma/leukemia -- Subcutaneous panniculitis-like T-cell lymphoma -- Extranodal NK/T-cell lymphoma, nasal type -- Primary cutaneous CD8+ aggressive epidermotropic cytotoxic T-cell lymphoma -- Primary cutaneous / T-cell lymphoma -- Diffuse large B-cell lymphoma, leg type -- Intravascular lymphoma -- Blastic plasmacytoid dendritic cell neoplasm -- Cutaneous Metastases of Breast Carcinoma -- Cutaneous metastases of the gastrointestinal tract -- Cutaneous metastases of lung cancer -- Cutaneous metastases of the kidney and urogenital system -- Miscellaneous Skin Metastases.

---

## Sommario/riassunto

This book provides practitioners with a single volume that reviews the clinical and pathologic features of rarely encountered cutaneous neoplasms. The text includes an in-depth discussion of the clinical findings, as well as the histologic and immunologic features of these diseases that are rarely encountered, reported, or recognized. Additional laboratory data used to make and support the diagnoses with some therapeutic and prognostic hints are discussed for each entity. The volume is organized into general categories correlating with the cell(s) of origin. An atlas of clinical manifestations is presented for each entity that will serve as a bedside clinical reference, followed by a series of photomicrographs depicting the histologic changes. In all cases, recent updates on molecular tools helpful in attaining the diagnosis are added to the sections on histology and immunohistochemistry. Rare Malignant Skin Tumors is a valuable bedside reference for the practicing dermatopathologist, general pathologist reviewing skin biopsies, general dermatologists, cutaneous oncologists and Mohs' surgeons.
