

1. Record Nr.	UNINA9910300193103321
Titolo	Female Genital Tract Congenital Malformations : Classification, Diagnosis and Management // edited by Grigoris F. Grimbizis, Rudi Campo, Basil C. Tarlatzis, Stephan Gordts
Pubbl/distr/stampa	London : , : Springer London : , : Imprint : Springer, , 2015
ISBN	1-4471-5146-1
Edizione	[1st ed. 2015.]
Descrizione fisica	1 online resource (310 p.)
Disciplina	610 612.6 616.07543 616.0757 617 617.05 618.1
Soggetti	Reproductive health Gynecology Ultrasonics Surgery Endoscopic surgery Interventional radiology Reproductive Medicine Minimally Invasive Surgery Interventional Radiology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references at the end of each chapters and index.
Nota di contenuto	Part 1: basics -- 1. Normal embryological development of the female genital tract -- 2. Pathogenesis and aetiology of female genital malformations -- 3. Implantation in women with uterine congenital malformations -- 4. Classification of female genital malformations.- Part 2: Screening and diagnosis of female genital malformations -- 5. Hysterosalpingography -- 6. 2D Ultrasound and sonohysterography for

the diagnosis of Female Genital Anomalies -- 7. 3D Ultrasound -- 8. Magnetic resonance imaging for the Diagnosis of Female Genital Anomalies -- 9. Diagnosis of Uterine Congenital Anomalies: Endoscopy -- 10. Current Work-Up for Screening And Diagnosing Female Genital Malformations -- Part 3: Clinical implications of the female genital malformations -- 11. Prevalence in the general and selected populations -- 12. Health problems related to female genital malformations: obstructive and complex anomalies -- 13. Fertility in women with uterine anomalies -- 14. Pregnancy outcome in women with uterine anomalies -- 15. Cervical Weakness in women who have uterine anomalies: Impact on pregnancy outcomes.- Part 4: Treatment of vaginal aplasia / techniques and results -- 16. Frank dilators -- 17. Vulvo-Perineoplasty Creatsas Vaginoplasty -- 18. Neovagina formation with expansion of vaginal vault -- 19. Neovagina formation with the use of peritoneum -- 20. Neovagina formation with the use of bowel -- 21. Vaginal Aplasia: Critical Overview of Available Treatment Options -- Part 5: Treatment of obstructive anomalies -- 22. Vaginal septae and imperforate hymen -- 23. Treatment of Obstructing Anomalies: Cervical aplasia -- 24. Treatment of Patients with Non-communicating Horns with Cavity -- Part 6: Treatment of uterine malformations -- 25. T-shaped uterus -- 26. Septum resection: Techniques and Post-Treatment Reproductive Performance -- 27. Bicorporeal uterus: treatment options -- 28. Bicorporeal Uterus: Laparoscopic Metroplasty -- Part 7: Disorders of sex development -- 29. Disorders of Sex Development: Classification and Treatment.

Sommario/riassunto

Using the new ESHRE/ESGE classification system, this book presents all uterine, cervical and vaginal anomalies in a systematic way. The diagnostic work-up of women with female genital malformations is reviewed in an evidence-based fashion, taking into account the availability of new non-invasive diagnostic methods. The treatment strategies and the therapeutic alternatives to restore health are also critically reviewed. Female Genital Tract Congenital Malformations: Classification, Diagnosis and Management assesses all the latest information concerning the pathogenesis, diagnosis and treatment of female genital malformations. It is a vital manual for all trainees and practitioners within the fields of obstetrics and gynecology, radiologists, researchers in the field of human reproduction, fertility specialists, endoscopists, and ultrasonographers. .
