

1. Record Nr.	UNINA9910300196203321
Autore	Sun Xichun
Titolo	Well-Differentiated Malignancies [[electronic resource]] : New Perspectives // by Xichun Sun
Pubbl/distr/stampa	New York, NY : , : Springer New York : , : Imprint : Humana, , 2015
ISBN	1-4939-1692-0
Edizione	[1st ed. 2015.]
Descrizione fisica	1 online resource (195 p.)
Collana	Current Clinical Pathology, , 2197-781X
Disciplina	617.07
Soggetti	Pathology Oncology Oncology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references at the end of each chapters and index.
Nota di contenuto	Cutaneous Tissue -- Soft Tissues -- Skeletal System -- Nervous System -- Genitourinary System -- Female Reproductive System -- Gastrointestinal System, Pancreatobiliary Tract and Liver -- Lung and Pleura -- Thyroid Gland, Salivary Gland and Thymus -- Mammary Gland.
Sommario/riassunto	This book represents a daring and rarely attempted endeavor to bridge the gap between histopathology and molecular medicine in that cutting-edge molecular findings are seamlessly integrated into the key morphological features. This volume also includes discussions of short lists of organ-based benign lesions with concerning morphological features. Presented in the differential diagnosis section, they will not only serve as useful checklists for the surgical pathologist who is seriously contemplating a diagnosis of malignancy due to the observation of some cytological or histological atypia, but also help hone the key features of each malignant atypia. Well-Differentiated Malignancies: New Perspectives provides an innovative resource on the difficult topic of well-differentiated malignancies for pathology residents, fellows and for those already in clinical practice.
