

1. Record Nr.	UNISA996390152603316
Autore	Hart John, D.D.
Titolo	Christ's last sermon: or, The everlasting estate and condition of all men in the world to come [[electronic resource] ] : Exactly describing the everlasting, blessed, and happy condition of the children of God in glory for ever: with the everlasting endless, and careless condition of wicked men in the world to come for ever. Set forth for the comfort of the godly and for the terrour of the ungodly, by a godly, able, and faithful servant of Jesus Christ
Pubbl/distr/stampa	[London], : Printed by A.M. for W. Thackery, and T. Passinger., [1679?]
Descrizione fisica	[48] p. : ill. (port.)
Soggetti	Heaven
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Signatures: A-C. Frontis = ill. Place of publication from Wing; imprint year conjectured by Wing. Reproduction of the original in the Bodleian Library.
Sommario/riassunto	eebo-0014

2. Record Nr.	UNINA9910702430803321
Autore	Shyam Vikram
Titolo	Long hole film cooling dataset for CFD development . Part 1 Infrared thermography and thermocouple surveys // Vikram Shyam [and five others]
Pubbl/distr/stampa	Cleveland, Ohio : , : National Aeronautics and Space Administration, Glenn Research Center, , 2013
Descrizione fisica	1 online resource (40 pages) : color illustrations
Collana	NASA/TM ; ; 2013-218086
Soggetti	Reynolds number Hole geometry (mechanics) Thermal mapping Thermography Infrared imagery Computational fluid dynamics Hot-wire anemometers
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Title from title screen (viewed on Aug. 28, 2014). "November 2013."
Nota di bibliografia	Includes bibliographical references (pages 39-40).

3. Record Nr.	UNINA9910300196603321
Titolo	Electrical Stimulation for Pelvic Floor Disorders // edited by Jacopo Martellucci
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2015
ISBN	3-319-06947-0
Edizione	[1st ed. 2015.]
Descrizione fisica	1 online resource (268 p.)
Disciplina	610 616.0472 616.6 617.03 617.05 617.555
Soggetti	Rectum—Surgery Urology Pain medicine Minimally invasive surgery Medical rehabilitation Alternative medicine Colorectal Surgery Pain Medicine Minimally Invasive Surgery Rehabilitation Medicine Complementary & Alternative Medicine
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references at the end of each chapters.
Nota di contenuto	Foreword by E Weil -- Preface -- 1.Introduction -- 2.Functional anatomy of the pelvic floor -- 3.Neurophysiology and Neurophysiological Evaluation of the Pelvic Floor -- 4.Basic concepts in electricity and electrotherapy -- 5.Acupuncture and Electroacupuncture -- 6.Electrical Stimulation, Biofeedback and other rehabilitative techniques -- 7.Transcutaneous Electrical Nerve Stimulation -- 8.Tibial

Nerve Stimulation -- 9.Sacral Nerve Modulation: techniques and indications -- 10. Sacral Nerve Modulation for urinary disorders: Over Active Bladder -- 11.Sacral Nerve Modulation for urinary disorders: Urinary Retention -- 12.Sacral Nerve Modulation for Fecal Incontinence -- 13.Sacral Nerve Modulation for Constipation -- 14.Pudendal Nerve Modulation -- 15.Electrical stimulation in sexual dysfunction -- 16. Electrical stimulation for Pelvic Pain -- 17.Pelvic Floor Neuromodulation in Neurologic patients -- 18.New frontiers.

---

Sommario/riassunto

This book will enable the reader to gain a sound understanding of contemporary and futuristic evidence-based interventions and assessment procedures for pelvic floor disorders. It gathers the experiences of some of the most important experts on electrical stimulation techniques, offering a multidisciplinary and problem-oriented approach organized according to therapeutic goals. Interventions are recommended that are consistent with theory and display clinical efficacy for specific disorders, including urinary incontinence or retention, fecal incontinence, constipation, pelvic pain, sexual dysfunction, and neurological diseases involving the pelvic floor. All of the surgical or rehabilitative techniques requiring electrical stimulation for the treatment of these disorders are explored, and essential background information is provided on functional anatomy, neurophysiology, and concepts in electrotherapy. This volume will be a very useful tool for urologists, general or colorectal surgeons, gynecologists, and anesthesiologists, and also physiotherapists and alternative medicine practitioners (a specific chapter focuses on electroacupuncture). It will assist in their clinical practice as they seek to help the very many patients who suffer from any of the wide range of functional pelvic floor disorders.
