

1. Record Nr.	UNINA9910300201803321
Titolo	Orphan Lung Diseases : A Clinical Guide to Rare Lung Disease // edited by Vincent Cottin, Jean-Francois Cordier, Luca Richeldi
Pubbl/distr/stampa	London : , : Springer London : , : Imprint : Springer, , 2015
ISBN	1-4471-2401-4
Edizione	[1st ed. 2015.]
Descrizione fisica	1 online resource (623 p.)
Disciplina	616 616.2
Soggetti	Respiratory organs—Diseases Internal medicine Pneumology/Respiratory System Internal Medicine
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references at the end of each chapters and index.
Nota di contenuto	1. Orphan Lung Diseases: From definition to organisation of Care -- 2. The Challenge of clinical research in orphan lung diseases -- 3. Chronic bronchiolitis in adults -- 4. Diffuse bronchiectasis of genetic origin -- 5. Allergic bronchopulmonary mycosis -- 6. Orphan Tracheopathies -- 7. Amyloidosis and the respiratory tract -- 8. Churg-Strauss syndrome: A clinical and therapeutic approach -- 9. Granunomatosis with polyangiitis (Wegener's granylomatosis) -- 10. Alveolar Hemorrhage -- 11. Pulmonary Involvement in Takayasu Arteritis and Behçet Disease -- 12. Pulmonary vascular manifestations of hereditary hemorrhagic -- 13. Hepatopulmonary syndrome -- 14. Non-Langerhans cell histiocytosis -including Erdheim-Chester disease- and the lung -- 15. Idiopathic eosinophilic pneumonia -- 16. Multiple cystic lung disease -- 17. Lymphangioliomyomatosis -- 18. Pulmonary alveolar Proteinosis -- 19. Exogenous lipid pneumonia -- 20. Pulmonary alveolar microlithiasis -- 21. Pulmonary Fibrosis and the many faces of UIP -- 22. The syndrome of combined pulmonary fibrosis and emphysema -- 23. Non-specific, Unclassifiable, and Rare Idiopathic Interstitial Pneumonia -- 24. Organizing Pneumonias -- 25. Interstitial lung disease in systemic sclerosis -- 26. Interstitial lung

disease in connective tissue diseases other than systemic sclerosis -- 27. Interstitial Lung Disease in Undifferentiated Forms of Connective Tissue Disease -- 28. Langerhans cell Granulomatosis and smoking-related interstitial lung diseases -- 29. Rare causes and the spectrum of hypersensitivity pneumonitis -- 30. Chronic beryllium disease and other interstitial lung diseases of occupational origin -- 31. Lymphoproliferative lung disorders -- 32. Pulmonary manifestations of hematological malignancies -- 33. Pulmonary hypertension in orphan lung diseases -- 34. Orphan and rare drug-induced and iatrogenic respiratory disease -- 35. From cancer mimicking orphan lung disease to orphan thoracic oncology -- 36. Rare Diffuse lung diseases of genetic origin.

Sommario/riassunto

Focusing on clinical practice, this book explores the less common diseases affecting the airways, systematic disorders with lung involvement, interstitial lung diseases and many other orphan conditions of the lungs. It helps the reader to diagnose and manage these rare orphan diseases. *Orphan Lung Diseases: A Clinical Guide to Rare Lung Disease* is a practical, informative book written by a team of international authors with much experience in rare pulmonary diseases. *Orphan Lung Diseases: A Clinical Guide to Rare Lung Disease* provides synthesized and easily accessible information about the main orphan lung diseases, to aid clinicians in charge of patients with rare disease, or who consider the diagnosis of a rare disease in their patient.
