Soggetti	Restorative justice - Libya Customary law - Libya Justice, Administration of - Libya Customary law Justice, Administration of Restorative justice Libya Social conditions Libya
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	"June 2015."
Nota di bibliografia	Includes bibliographical references (page 13).

2. Record Nr.	UNINA9910300204603321
<b>Titolo</b>	Advances in Transplant Dermatology : Clinical and Practical Implications // edited by Fiona Zwald, Marc D. Brown
<b>Pubbl/distr/stampa</b>	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2015
<b>ISBN</b>	3-319-12445-5
<b>Edizione</b>	[1st ed. 2015.]
<b>Descrizione fisica</b>	1 online resource (128 p.)
 <b>Disciplina</b>	 610 616.5 616079 617954
 <b>Soggetti</b>	 Dermatology Transplantation of organs, tissues, etc Immunology Transplant Surgery
 <b>Lingua di pubblicazione</b>	 Inglese
 <b>Formato</b>	 Materiale a stampa
 <b>Livello bibliografico</b>	 Monografia
 <b>Note generali</b>	 Description based upon print version of record.
 <b>Nota di bibliografia</b>	 Includes bibliographical references at the end of each chapters.
 <b>Nota di contenuto</b>	 Transplantation today -- De novo malignancies after solid organ transplantation: focus on viral infection -- Update on benign and inflammatory skin disease secondary to transplant medication -- Update on photoprotection and sunscreen use in solid organ transplant recipients -- Update on our understanding of HPV as a risk factor for cutaneous SCC in organ transplant recipients -- Advances in our understanding of immunosuppression as a risk factor for cutaneous SCC: evidence for revision of immunosuppressive therapy -- Advances in photodynamic therapy for the treatment of malignant and premalignant lesions in transplant dermatology -- Update on staging, definition and chemoprevention of 'high risk SCC' in organ transplant recipients -- Advances in management of 'high risk SCC' in organ transplant recipients -- Advances in management of Merkel cell carcinoma in organ transplant recipients; role of polyoma virus and immunosuppression -- Update in melanoma in organ transplant recipients -- Update on unusual tumors in organ transplant

recipients. .

#### Sommario/riassunto

This book provides an informative update on scientific advances relating to transplant dermatology that may be applicable to clinical practice. Commentary is provided on the emerging role of viruses in transplant dermatology, the management of skin disease secondary to transplant medication, sunscreen use in transplant recipients, the role of revision of immunosuppression, and advances in photodynamic therapy. The latest staging and management criteria for high-risk squamous cell carcinoma and the implications for clinical practice are then analyzed. Finally, the management of other cutaneous malignancies is discussed, covering malignant melanoma, Merkel cell carcinoma, and rarer tumors that also behave aggressively and require special consideration in solid organ transplant patients. Each particular advance is addressed in an individual chapter by leaders in the field. The book both expands current knowledge and complements previous textbooks on the subject.
