| Sommario/riassunto | This groundbreaking series of essays offers new insights into Turkish cultures both past and present. Moving beyond the traditional binaries of east/west, Islam/secularism, and Europe/Asia, the book contains a variety of perspectives on contemporary Turkey, from actors, directors, critics and other major cultural figures. The book tries to situate these opinions in context by looking at how such perspectives are employed in different cultural spheres-education, theatre, politics and the like.... |

Nota di contenuto

The pseudepigrapha and Christian origins -- Introduction / John M. Court -- The continuing quest for the provenance of Old Testament pseudepigrapha / Richard J. Bauckham -- Pseudepigrapha research and Christian origins after the OTP / Lorenzo DiTommaso -- The pseudepigrapha and the Synoptic Gospels -- Jewish martyrology and the death of Jesus / David A. deSilva -- Jesus' apocalyptic worldview and His exorcistic ministry / Loren T. Stuckenbruck -- The pseudepigrapha and Paul -- Adam and Eve in Romans 1:18-25 and the Greek life of Adam and Eve / John R. Levinson -- The story of our lives : the qz-text of the life of Adam and Eve, the Apostle Paul, and the Jewish-Christian oral tradition concerning Adam and Eve / Johannes Tromp -- Adam in Paul / James D.G. Dunn -- The pseudepigrapha and Luke-Acts -- The pseudepigrapha and the problem of background "parallels" in the study of the Acts of the Apostles / Craig A. Evans -- The pseudepigrapha and the narratives in Luke-Acts / Gerbern S. Oegema -- The pseudepigrapha and the revelation of John -- The apocalypse of John and Palestinian Jewish apocalyptic / David E. Aune -- The parables of Enoch and the apocalypse of John / James H. Charlesworth -- The reception of the Book of Daniel (and Danielic literature) in the early church / Gerbern S. Oegema -- Ancient Bible manuscripts and the biblical canon / Lee Martin McDonald.

Sommario/riassunto

In the Seminar "The Pseudepigrapha and Christian Origins" of the "Studiorum Novi Testamenti Societas", chaired from 2000 to 2006 by Professors James H. Charlesworth (Princeton) and Gerbern S. Oegema (McGill), the relation between the Pseudepigrapha and the New Testament has been discussed systematically and intensively in a way never seen before. The Pseudepigrapha investigated included the Old Testament ones and those found in the Qumran as well as the Pseudepigrapha of the New Testament and the ones used in the Early Church . The seminar and its participants, who were all internally ren

Part I. Human Peripheral Nerve -- 1. Ultrastructure of Myelinated and Unmyelinated Axons -- 2. Macrophages, Mastocytes, and Plasma Cells -- 3. Ultrastructure of the Endoneurium -- 4. Ultrastructure of the Perineurium -- 5. Ultrastructure of the Epineurium -- 6. Origin of the Fascicles and Intraneuronal Plexus -- 7. Macroscopic View of the Cervical Plexus and Brachial Plexus -- 8. Anna Carrera, Francisco Reina -- 9. Macroscopic View of the Lumbar Plexus and Sacral Plexus -- 10. Cross-sectional Microscopic Anatomy of the Sciatic Nerve and its Dissected Branches -- 11. Cross-sectional Microscopic Anatomy of the Sciatic Nerve and Paraneuronal Sheaths -- 12. Computerized Tomographic Images of Unintentional Intraneuronal Injection -- 13. Ultrasound View of

Unintentional Intraneuronal Injection -- 14. Histologic Features of Needle-Nerve and Intraneuronal Injection Injury as Seen on Light Microscopy -- 15. Structure of Nerve Lesions after "In Vitro" Punctures -- 16. Scanning Electron Microscopy View of In Vitro Intraneuronal Injections -- 17. Injection of Dye Inside the Paraneuronal Sheath of the Sciatic Nerve in the Popliteal Fossa -- 18. High-Definition and Three-Dimensional Volumetric Ultrasound Imaging of the Sciatic Nerve -- Part II. Component of the Spinal Canal -- 19. Spinal Dural Sac, Nerve Root Cuffs, Rootlets, and Nerve Roots -- 20. Ultrastructure of Spinal Dura Mater -- 21. Ultrastructure of the Spinal Arachnoid Layer -- 22. Three-Dimensional Reconstruction of Spinal Dural Sac -- 23. Three-dimensional Reconstruction of Spinal Epidural Fat -- 24. Ultrastructure of Human Spinal Trabecular Arachnoid -- 25. Ultrastructure of Spinal Pia Mater -- 26. Ultrastructure of Spinal Subdural Compartment: Origin of Spinal Subdural Space -- 27. Unintentional Subdural and Intradural Placement of Epidural Catheters -- 28. Ultrastructure of Human Spinal Nerve Roots -- 29. Three-dimensional Reconstruction of Cauda Equina Nerve Roots -- 30. Spinal Nerve Root Lesions after "In Vitro" Needle Puncture -- 31. Nerve Root Cuff Lesions after "In Vitro" Needle Puncture and Model of "In Vitro" Nerve Stimuli Caused by Epidural Catheters -- 32. Ligamentum Flavum and Related Spinal Ligaments -- 33. The Ligamentum Flavum -- 34. Subarachnoid (Intrathecal) Ligaments -- 35. Displacement of the Nerve Roots of Cauda Equina in Different Positions -- 36. Nerve Root and Types of Needles Used in Transforaminal Injections -- 37. Three-Dimensional Visualization of Spinal Cerebrospinal Fluid and Cauda Equina Nerve Roots, and Estimation of a Related Vulnerability Ratio -- 38. Ultrastructure of Nerve Root Cuffs: Dura-Epineurium Transition Tissue -- 39. Ultrastructure of Nerve Root Cuffs: Arachnoid Layer-Perineurium Transition Tissue at Preganglionic, Ganglionic, and Postganglionic Levels -- 40. Spinal Cord Stimulation -- 41. Ultrastructure of Dural Lesions Produced in Lumbar Punctures -- 42. Injections of Particulate Steroids for Nerve Root Blockade: Ultrastructural Examination of Complicating Factors -- 43. Nerve Root and Types of Needles Used in Transforaminal Injections -- Part III. Materials -- 44. Needles in Regional Anesthesia -- 45. Catheters in Regional Anesthesia -- 46. Epidural Filters and Particles from Surgical Gloves -- Part IV. Research Techniques -- 47. Three-dimensional Reconstruction of Spinal Cerebrospinal Fluid, Roots, and Surrounding Structures -- 48. Cerebrospinal Fluid and Root Volume Quantification from Magnetic Resonance Images -- 49. Scanning Electron Microscopy -- 50. Transmission Electron Microscopy .

Sommario/riassunto

This is the first atlas to depict in high-resolution images the fine structure of the spinal canal, the nervous plexuses, and the peripheral nerves in relation to clinical practice. The *Atlas of Functional Anatomy for Regional Anesthesia and Pain Medicine* contains more than 1500 images of unsurpassed quality, most of which have never been published, including scanning electron microscopy images of neuronal ultrastructures, macroscopic sectional anatomy, and three-dimensional images reconstructed from patient imaging studies. Each chapter begins with a short introduction on the covered subject but then allows the images to embody the rest of the work; detailed text accompanies figures to guide readers through anatomy, providing evidence-based, clinically relevant information. Beyond clinically relevant anatomy, the book features regional anesthesia equipment (needles, catheters, surgical gloves) and overview of some cutting edge research instruments (e.g. scanning electron microscopy and transmission electron microscopy). Of interest to regional

anesthesiologists, interventional pain physicians, and surgeons, this compendium is meant to complement texts that do not have this type of graphic material in the subjects of regional anesthesia, interventional pain management, and surgical techniques of the spine or peripheral nerves.
