

1. Record Nr.	UNINA9910300211803321
Autore	Watts Richard A
Titolo	Vasculitis in Clinical Practice // by Richard A. Watts, David G. I. Scott, Chetan Mukhtyar
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2015
ISBN	3-319-14871-0
Edizione	[2nd ed. 2015.]
Descrizione fisica	1 online resource (232 p.)
Disciplina	610 614.5993 616 616723
Soggetti	Rheumatology Internal medicine Allergy Internal Medicine Allergology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Part 1. Introduction -- 1. Definitions -- 2. Classification and Epidemiology -- 3. General Presentation of the Vasculitides -- 4. General Principles of Treatment -- Part 2. Features of Individual Diseases -- 5. Giant Cell Arteritis -- 6. Takayasu Arteritis -- 7. Granulomatosis with Polyangiitis - GPA (Wegeners) -- 8. Eosinophilia with Granulomatosis and Polyangiitis- EGPA (Churg–Strauss Syndrome) -- 9. Microscopic Polyangiitis -- 10. Polyarteritis Nodosa -- 11. Kawasaki Disease -- 12. IgA Vasculitis -- 13. Behçet's Disease -- 14. Cryoglobulinemic Vasculitis -- 15. Vasculitis Mimics -- 16. Secondary Vasculitis -- 17. Primary Angiitis of the Central Nervous System Vasculitis -- 18. Relapsing Polychondritis -- 19. Cogan's Syndrome -- 20. IgG4 Related Disease.
Sommario/riassunto	In this second edition, the authors discuss the newly discovered entity of IgG4 related diseases, look in greater detail at the role of biologic treatment in ANCA associated vasculitis, and have revised the

nomenclature in each chapter to reflect international consensus. The addition of illustrations as well as online video content helps the reader manage patients with these potentially devastating conditions.

Vasculitis in Clinical Practice, Second Edition, is a useful and concise volume that will help physicians in training, primary care physicians and nurse practitioners in quickly and easily recognizing the key and salient points of each condition.
