

1. Record Nr.	UNINA9910300212003321
Autore	Pelberg Robert
Titolo	Cardiac CT Angiography Manual // by Robert Pelberg
Pubbl/distr/stampa	London : , : Springer London : , : Imprint : Springer, , 2015
ISBN	1-4471-6689-2 1-4471-6690-6
Edizione	[2nd ed. 2015.]
Descrizione fisica	1 online resource (305 p.)
Disciplina	610 616.0757 616.12
Soggetti	Cardiology Radiology Diagnostic Radiology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references at the end of each chapters and index.
Sommario/riassunto	This second edition is meant to adhere to the guiding principles of the original edition while serving as a useful and up to date manual on the theory, performance and application of Cardiac CT angiography (CCTA). The technique has come a long way and is now a mainstream, well-established cardiac diagnostic imaging modality with widespread acceptance and application. Cardiac CT Angiography Manual represents a useful summary of the field and an aid in the training process. It is intended to make hard to understand concepts, easy and enjoyable by translating difficult ideas into simple terminology and phraseology. It has been designed to guide the reader through the training process and to serve as a useful reference for those already practicing CCTA.
