

1. Record Nr.	UNINA9910300212603321
Titolo	Surgical Approaches to the Spine // edited by Robert G. Watkins, III, Robert G. Watkins, IV
Pubbl/distr/stampa	New York, NY : , : Springer New York : , : Imprint : Springer, , 2015
ISBN	1-4939-2465-6
Edizione	[3rd ed. 2015.]
Descrizione fisica	1 online resource (417 p.)
Disciplina	610 616.7 617 617.48
Soggetti	Orthopedics Nervous system - Surgery Surgery Orthopaedics Neurosurgery
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Anterior Cervical Approaches to the Spine -- Transoral Approach to C1-2 -- Transoral-Transpharyngeal Approach to the Cervical Spine -- Ventral Approach to the Clivus, C1 and C2 -- Anterior Medial Approach to C1, 2, 3 -- Anterior Lateral Approach to the Upper Cervical Spine -- Anterior Medial Approach to the Midcervical Spine -- Lateral Approach to the Cervical Spine (Verbiest).-Lateral Approach to the Cervical Spine (Hodgson).-Supraclavicular Approach -- Lincoln Highway Approach to the Cervical Spine -- Cervicothoracic Junction -- Anterior Approach to the Cervicothoracic Spine -- Transsternal Approach to the Cervicothoracic Junction -- Transaxillary Approach to the Upper Dorsal Spine-.Third Rib Resection in the Transthoracic Approach -- Thoracotomy Approach -- The Thoracolumbar Junction -- Tenth Rib: Thoracoabdominal Approach -- Eleventh Rib Approach -- Trans-Eleventh Rib Extrapleural Approach -- Twelfth Rib Approach.-Video Endoscopic Approach to the Thoracic Spine.-Tubular Lateral Approach to the Thoracic and Thoracolumbar Junction.-Anterior Retroperitoneal

Flank Approach to L2-L5.-Anterior Retroperitoneal Muscle-Sparing Approach to L2-S1.-Anterior Retroperitoneal Flank Approach to L5-S1.-Anterior Extraperitoneal Midline Incision of L2-S1.-Transperitoneal Midline Approach to L4-S1.-Laparoscopic Approach to the L3-L4 and L4-L5 Invertebral Discs .-Transperitoneal Laparoscopic Approach to L5-S1.-Balloon-Assisted Endoscopic Retroperitoneal Gasless (BERG) Approach to the Lumbar Spine.-Tubular Lateral Approach to the Lumbar Spine.-Oblique Lateral Approach to the Lumbar Spine (L2-L5).- Oblique Lateral Approach to L5-S1.-Superior Hypogastric Sympathetic Plexus.-En Bloc Sacrectomy.-Approach to the Posterior Aspect of C1-C2.-Posterior Approach to the C1-C2 Joints.-Minimally Invasive Approach to Posterior Occiput to C2.-Cervical Foraminotomy: Indications and Techniques.-Microcervical Foraminotomy: An Alternative Posterior technique for Intractable Radicular Pain.-Tubular Approaches to the Posterior Cervical Spine.-Costotransversectomy.- Posterior and Posterolateral Approaches to the Thoracic Disc.-Posterior Approach to the Lower Lumbar Spine.-Lumbar Laminotomy, Foraminotomy, Root Decompression and Discectomy in the Lateral Position.-Microscopic Lumbar Discectomy.-Bilateral Paraspinous Lumbosacral Approach .-Posterolateral Foraminal Approach to the Lumbar Disc.-Microendoscopic Discectomy for Lumbar Disc Herniations: Paramedian and Far Lateral Approaches.-Endoscopic Foraminal Approach to the Lumbar Spine.-Total En Bloc Spondylectomy: A New Surgical Technique for Malignant Vertebral Tumors.-Injections of the Cervical, Thoracic and Lumbar Spine.

Sommario/riassunto

Now is its revised and expanded third edition, including nine new chapters, this step-by-step, state-of-the-art procedural manual covers over 50 unique surgical approaches for injuries and conditions of the spine. Generously illustrated, various surgical approaches to the cervical, thoracic and lumbar spine are clearly enumerated and described, including anterior, lateral, and posterior approaches and the worldwide movement toward the use of tubular retractors for a multitude of approaches. Written and edited by leaders in the field of spine surgery, this updated edition will be an invaluable resource for orthopedic surgeons, neurosurgeons and sports medicine practitioners alike.
