

1. Record Nr.	UNINA9910300213803321
Autore	Vaidyanathan Subramoniam
Titolo	Chronic Venous Disorders of the Lower Limbs [[electronic resource]] : A Surgical Approach / / by Subramoniam Vaidyanathan, Riju Ramachandran Menon, Pradeep Jacob, Binni John
Pubbl/distr/stampa	New Delhi : , : Springer India : , : Imprint : Springer, , 2015
ISBN	81-322-1991-0
Edizione	[1st ed. 2015.]
Descrizione fisica	1 online resource (229 p.)
Disciplina	610 617 617.05 617413
Soggetti	Surgery Vascular surgery Minimally invasive surgery General Surgery Vascular Surgery Minimally Invasive Surgery
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references at the end of each chapters and index.
Nota di contenuto	Section I - Basics Chapter 1 Venous diseases - a historical survey -- Chapter 2 - Lower limb venous anatomy -- Chapter 3 - Venous physiology and haemodynamics of lower limbs -- Chapter 4 - Chronic venous disorders. Classification , severity assessment and nomenclature. Section II - Primary varicose veins -C2 clinical class -- Chapter 5 - Epidemiology and risk factors -- Chapter 6 - Primary varicose veins : symptoms and diagnosis -- Chapter 7 - Open surgery for primary varicose veins -- Chapter 8 - Endovenous thermal ablation -- Chapter 9 - Sclerotherapy -- Chapter 10 - Recurrent varicose veins Section III - Chronic venous insufficiency and leg ulcer - C3-C6 clinical class -- Chapter 11 - Chronic venous insufficiency and venous ulcers: pathophysiology -- Chapter 12 - Chronic venous insufficiency - clinical features and investigations -- Chapter 13 - Principles of treatment of

chronic venous insufficiency -- Chapter 14 - The post-thrombotic syndrome. Pathophysiology, clinical features and management -- Chapter 15 - Care of ulcer and compression therapy -- Chapter 16 - Pharmacotherapy of CVI -- Chapter 17 - Strategies for the management of incompetent perforating veins -- Chapter 18 - Deep vein valve reconstruction -- Chapter 19 - Deep vein obstruction - management strategies. Section IV - Assorted venous problems -- Chapter 20 - Venous telangiectasia and reticular veins- Clinical class CI -- Chapter 21 - Pelvic venous syndromes -- Chapter 22 - Non thrombotic iliac vein lesion (May Thurner syndrome) -- Chapter 23 - Klippel Trenaunay Syndrome. .

Sommario/riassunto

Chronic venous disorders are a major health problem due to their wide prevalence and socio-economic considerations. This book is a comprehensive manual providing state-of-the-art information on the diagnosis and management of these common problems. Till recently venous disorders have been getting secondary attention as compared to their arterial counterpart. However, the last two decades witnessed major technological advancements and therapeutic strategies for these problems. Written with a surgical perspective, this monograph covers the latest developments and recommended procedures in an easy-to-read format guiding the surgeon to prepare a rational treatment plan. Supplemented with numerous figures and illustrations, the chapters update the readers with how to evaluate such patients in their practices, selection criteria for appropriate procedures and how to manage the complications. The book includes basics of venous disorders, primary varicose veins and recurrence after surgery, chronic venous insufficiency, venous ulcers and congenital venous malformations. Detailed coverage of endo-venous procedures such as radio-frequency ablation, laser ablation and foam sclerotherapy are additional essential features of this book. Primarily intended for the practicing general surgeon, this volume is also relevant for residents in general surgery and vascular surgery. .
