

1. Record Nr.	UNINA9910300217403321
Autore	Warth Ryan J.
Titolo	Physical Examination of the Shoulder : An Evidence-Based Approach // by Ryan J. Warth, Peter J. Millett
Pubbl/distr/stampa	New York, NY : , : Springer New York : , : Imprint : Springer, , 2015
ISBN	1-4939-2593-8
Edizione	[1st ed. 2015.]
Descrizione fisica	1 online resource (280 p.)
Disciplina	610 617.03 617.1027 617.47
Soggetti	Orthopedic surgery Sports medicine Clinical psychology Rehabilitation Mentally ill - Rehabilitation Surgical Orthopedics Sports Medicine Rehabilitation Psychology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references at the end of each chapters and index.
Nota di contenuto	About this Book -- Range of Motion -- Strength Testing -- Strength Testing -- Rotator Cuff Disorders -- Disorders of the Long Head of the Biceps Tendon -- Glenohumeral Instability -- The Acromioclavicular Joint -- The Sternoclavicular Joint -- Scapular Dyskinesis -- Neurovascular Disorders.
Sommario/riassunto	This text presents a comprehensive and concise evidence-based and differential-based approach to physical examination of the shoulder in a manner that promotes its successful application in clinical practice. Additionally, this book provides an integrated approach to the diagnosis of numerous shoulder pathologies by combining discussions of pathoanatomy and the interpretation of physical examination

techniques and was written for any health care professional or student who may be required to evaluate patients who present with shoulder pain. This information will allow the clinician to make informed decisions regarding further testing procedures, imaging and potential therapeutic options. Physical Examination of the Shoulder will serve as an invaluable resource for practicing orthopedic surgeons, sports medicine specialists, physical therapists, residents in training and medical students interested in the field of clinical orthopedics.
