

1. Record Nr.	UNINA9910300217603321
Titolo	The Bethesda System for Reporting Cervical Cytology [[electronic resource]] : Definitions, Criteria, and Explanatory Notes // edited by Ritu Nayar, David C. Wilbur
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2015
ISBN	3-319-11074-8
Edizione	[3rd ed. 2015.]
Descrizione fisica	1 online resource (342 p.)
Disciplina	571.6 610 616.07 616.99/466 618.1
Soggetti	Pathology Cell biology Gynecology Squamous Intraepithelial Lesions of the Cervix - classification Squamous Intraepithelial Lesions of the Cervix - pathology Cytodiagnosis - standards Adenocarcinoma in Situ - diagnosis Adenocarcinoma in Situ - pathology Cell Biology Gynecology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references at the end of each chapters and index.
Nota di contenuto	Specimen Adequacy -- Non-Neoplastic Findings -- Endometrial Cells: The How and When of Reporting -- Atypical Squamous -- Epithelial Abnormalities: Squamous -- Epithelial Abnormalities: Glandular -- Other Malignant -- Anal-Rectal Cytology -- Ancillary Testing -- Computer-Assisted Interpretation of Cervical Cytology -- Educational Notes and Suggestions Appended to Cytology Reports.

This book offers clear, up-to-date guidance on how to report cytologic findings in cervical, vaginal and anal samples in accordance with the 2014 Bethesda System Update. The new edition has been expanded and revised to take into account the advances and experience of the past decade. A new chapter has been added, the terminology and text have been updated, and various terminological and morphologic questions have been clarified. In addition, new images are included that reflect the experience gained with liquid-based cytology since the publication of the last edition in 2004. Among more than 300 images, some represent classic examples of an entity while others illustrate interpretative dilemmas, borderline cytomorphologic features or mimics of epithelial abnormalities. The Bethesda System for Reporting Cervical Cytology, with its user-friendly format, is a “must have” for pathologists, cytopathologists, pathology residents, cytotechnologists, and clinicians.
