

1. Record Nr.	UNINA9910300217903321
Autore	Larner A.J
Titolo	Diagnostic Test Accuracy Studies in Dementia : A Pragmatic Approach / / by A.J. Larner
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2015
ISBN	3-319-16697-2
Edizione	[1st ed. 2015.]
Descrizione fisica	1 online resource (160 p.)
Disciplina	610 612.67 612.8 616.8 616.89 618.97
Soggetti	Neurology Psychiatry Geriatrics Neuropsychology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references at the end of each chapters and index.
Nota di contenuto	Introduction -- Methods (1): Participants and Test Methods -- Methods (2): Statistical Methods -- Results -- Discussion -- Future prospects for diagnostic test accuracy studies in dementia.
Sommario/riassunto	This book explains the key steps in planning and executing diagnostic test accuracy studies in dementia, with clear explanations of difficulties and pitfalls, and with jargon clearly explained. The emphasis is on pragmatic diagnostic test accuracy studies which can be integrated into day-to-day clinical practice. The book is based on the author's experience over more than 10 years, which has resulted in the publication of many diagnostic test accuracy studies. The text is structured as for a research publication on a diagnostic test accuracy study (Introduction, Methods, Results, Discussion), with a final chapter on Future Prospects. Each of the chapters is devoted to a practical and

structured overview of each of these steps in performing and writing up such a study. Diagnostic Test Accuracy Studies in Dementia: A Pragmatic Approach is aimed at any clinician with an interest in dementia disorders: old age psychiatrists, geriatricians, neurologists, neuropsychologists and primary care physicians, as well as other professions allied to medicine. The book is also of interest to any clinician/researcher with an interest in diagnostic test accuracy studies.
