

1. Record Nr.	UNINA9910300218603321
Autore	Spandau Ulrich
Titolo	Small-Gauge Vitrectomy for Diabetic Retinopathy // by Ulrich Spandau ; edited by Ulrich Spandau
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2015
ISBN	3-319-14787-0
Edizione	[1st ed. 2015.]
Descrizione fisica	1 online resource (402 p.)
Disciplina	610 617.7
Soggetti	Ophthalmology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di contenuto	Introduction -- Surgical Planning -- Anaesthesia -- Instruments -- Surgical Techniques for Diabetic Retinopathy -- Combined Phacoemulsification and Anti-VEGF Treatment -- Easy Proliferative Diabetic Retinopathy -- Difficult Proliferative Diabetic Retinopathy -- Neovascular Glaucoma -- Case Reports -- Pits & Pearls -- Surgical Materials -- Companies.
Sommario/riassunto	This book describes step by step how to operate on the patient with diabetic retinopathy. After thorough explanation of surgical planning, including the potential need to perform individual procedures at different time points, each stage of the vitrectomy is clearly documented with the aid of color photographs and drawings as well as online surgical videos. Variations in approach are described that are potentially of value, depending on whether one is dealing with a straightforward diabetic retinopathy or a difficult case of tractional retinal detachment. In the second part of the book, a series of case reports are presented that illustrate the surgical procedures applicable in different circumstances. In addition, pearls and pitfalls are highlighted. Small-Gauge Vitrectomy for Diabetic Retinopathy will be an ideal source of information and guidance for all who are embarking upon such surgery or wish to further hone their skills.
