1.	Record Nr.	UNINA9910300219803321
	Titolo	Pocket Manual of General Thoracic Surgery / / edited by Amin Madani, Lorenzo Ferri, Andrew Seely
	Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2015
	ISBN	3-319-17497-5
	Edizione	[1st ed. 2015.]
	Descrizione fisica	1 online resource (273 p.)
	Disciplina	610
	Soggetti	Chest - Surgery
		Surgery
		Cancer - Surgery
		Thoracic Surgery
		General Surgery
		Surgical Oncology
	Lingua di pubblicazione	Inglese
	Formato	Materiale a stampa
	Livello bibliografico	Monografia
	Note generali	Description based upon print version of record.
	Nota di bibliografia	Includes bibliographical references at the end of each chapters and index.
	Nota di contenuto	Pre-Operative Evaluation of the Thoracic Patient -- Operative and Post-Operative Considerations -- Lung and Airway Disorders -- Pleural Disorders -- Mediastinal Disorders -- Chest Wall Disorders -- Chest Trauma -- Benign Esophageal Disorders -- Esophageal Cancer.
	Sommario/riassunto	This pocket manual is a quick-reference handbook for general thoracic surgery. It is organized into nine chapters providing a concise, yet inclusive list of the most common pathologies seen in thoracic surgery: pre-operative evaluation, peri-operative care, lungs and airways (divided into three separate sections to cover the vast number of topics), pleural disorders, mediastinal disorders, chest wall disorders, thoracic trauma, and benign and malignant esophageal disorders. The content of each chapter was specifically structured to make the handbook a high-yield reference that includes numerous management algorithms, flow diagrams, tables and images. Unlike a comprehensive textbook, paragraphs are kept at a minimum and the written material is presented using lists and bullet points to facilitate learning and

retention. More importantly, the content is evidence-based and highlights the various controversies in the field. The Pocket Manual of General Thoracic Surgery is an irreplaceable educational tool amongst trainees and practicing physicians. .
