Sommario/riassunto	The Canadian Annual Review has become an indispensable reference book for those concerned directly or indirectly with Canadian public affairs. It is not only a concise, convenient record of the year but a responsible appraisal of important developments compiled by a corps of Canadian scholars and experts, writing under the direction of an outstanding Canadian historian and political commentator. Featured in this edition are a review of the crucial Quebec provincial election in which the Parti quebecois went down to decisive defeat on a platform

of independence, an overview of Canada's reponse to the Chilean coup, and an outline of government attempts to deal with the growing inflation and with the oil shortage. In addition to being concise and completely authoritative, the Canadian Annual Review is eminently readable. The articles can be read consecutively for interest and instruction, or they can be spot read with ease to locate particular information. A superb index greatly enhances the value of this important reference book, for it is the only index to the history of the time.

2. Record Nr.	UNINA9910300220303321
Autore	Paneni Francesco
Titolo	Diabetes and Cardiovascular Disease : A Guide to Clinical Management // by Francesco Paneni, Francesco Cosentino

Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references at the end of each chapters.

## Nota di contenuto

Part I Diagnosis and Mechanisms of Disease: 1 Epidemiology, Definition and Diagnosis of Diabetes Mellitus -- 2 Diabetes and Cardiovascular Disease -- 3 Mechanisms of diabetic atherosclerosis -- 4 Environment, epigenetic changes and cardiovascular damage -- 5 Diabetic cardiomyopathy -- 6 Cerebrovascular disease -- Part II Management of Cardiovascular Risk Factors: 7 Risk stratification -- 8 Hyperglycemia -- 9 Diabetic dyslipidemia -- 10 Arterial hypertension -- 11 Anti-platelet therapy -- Part III Treatment of cardiovascular diseases in patients with diabetes: 12 Coronary artery disease -- 13 Acute coronary syndromes -- 14 Heart failure -- 15 Ischemic stroke -- 16 Peripheral artery disease.

---

## Sommario/riassunto

This book provides a practical hands-on approach to the management of patients with diabetes and cardiovascular disease, with original and up-to-date coverage of a variety of aspects of emerging clinical importance. Practical advice is offered on diagnosis, risk stratification, management of cardiovascular risk factors, and available drug therapies. Appropriate myocardial revascularization strategies are explained, and the current state of knowledge is documented regarding target-led multifactorial treatment and the management of acute coronary syndromes, heart failure, and cerebrovascular disease. New algorithms for diagnosis and treatment are presented, and to ensure ease of reference each chapter includes a box with practical recommendations as well as informative color illustrations and tables. The handbook will be of value for all cardiologists and diabetologists and will be especially helpful for young cardiologists, who are ever more frequently confronted by patients with diabetes and cardiovascular disease.

<b>Nota di bibliografia</b>	Includes bibliographical references and index.
<b>Nota di contenuto</b>	Trending Topics (Explainability, Ethics, Privacy, Multimodal NLP) -- Poster -- Explainable AI Workshop -- Student Workshop -- Evaluation Workshop.
<b>Sommario/riassunto</b>	This two-volume set of LNAI 12340 and LNAI 12341 constitutes the refereed proceedings of the 9th CCF Conference on Natural Language Processing and Chinese Computing, NLPCC 2020, held in Zhengzhou, China, in October 2020. The 70 full papers, 30 poster papers and 14 workshop papers presented were carefully reviewed and selected from

320 submissions. They are organized in the following areas:  
Conversational Bot/QA; Fundamentals of NLP; Knowledge Base, Graphs  
and Semantic Web; Machine Learning for NLP; Machine Translation and  
Multilinguality; NLP Applications; Social Media and Network; Text  
Mining; and Trending Topics.
