

1. Record Nr.	UNISALENTO991003543749707536
Autore	Neudecker, Richard
Titolo	Die Pracht der Latrine : Zum Wandel öffentlicher Bedürfnisanstalten in der kaiserzeitlichen Stadt / Richard Neudecker
Pubbl/distr/stampa	München : F. Pfeil, c1994
ISBN	3923871864
Descrizione fisica	175 p. : ill. ; 25 cm.
Collana	Studien zur antiken Stadt ; 1
Altri autori (Enti)	Bayerische Akademie der Wissenschaften
Soggetti	Architettura antica
Lingua di pubblicazione	Tedesco
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Contiene bibliografia

2. Record Nr.	UNINA9910300221303321
Titolo	Skin Necrosis / / edited by Luc Téot, Sylvie Meaume, Sadanori Akita, William J. Ennis, Veronique del Marmol
Pubbl/distr/stampa	Vienna : , : Springer Vienna : , : Imprint : Springer, , 2015
ISBN	3-7091-1241-9
Edizione	[1st ed. 2015.]
Descrizione fisica	1 online resource (272 p.)
Disciplina	610 610.73 612.67 616 616.5 617.1 617413 617952 618.97
Soggetti	Surgery, Plastic Blood-vessels - Surgery Dermatology Internal medicine Nursing Geriatrics Plastic Surgery Vascular Surgery Internal Medicine Geriatrics/Gerontology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references at the end of each chapters and index.
Nota di contenuto	Definitions, physiopathology, imaging -- 1. Cyanosis congestion and skin necrosis. Is necrosis a venous congestion at the origin? (S. Meaume) -- 2. Ischaemia reperfusion injury (T.K. Hunt) -- 3. Dry vs wet

necrosis (H. Justiniano) -- 4. Extension in depth (S. Akita) -- 5. X-ray imaging of necrotic skin (tbd) -- Different clinical context of skin necrosis -- 6. Vasoactive drugs (tbd) -- 7. Necrotising angiodermatitis (tbd) -- 8. Rheumatoid and systemic collagenosis vasculitis (F. Massaki) -- 9. Cold induced necrosis (tbd) -- 10. Cryoglobulinemia (tbd). - 11 -- Calciphylaxy (M. Romanelli) -- 12. Necrotic burns (R. Horch) -- 13. Purpura fulminans (tbd) -- 14. Fournier gangrene (tbd) -- 15. Envenimations (tbd) -- 16. Toxic syndromes. Systemic management (tbd) -- 17. Necrotising fasciitis (S. Akita) -- 18. Tumoral (I. Fromantin) -- 19. Infection and skin necrosis (D. Leaper) -- 20. Post-injection Interferon, high-viscosity products, anticoagulants warfarin, coumadin, vasopressive drugs (tbd) -- 21. Pyoderma gangrenosum (tbd) -- 22. Trauma, degloving, scalps (R. Strockmayer) -- 23. Pressure ulcer necrosis in geriatric, in paraplegic patients in ICU (tbd) -- 24. Pressure ulcers in neonates (G. Ciprandi) -- 25. Arterial leg ulcer and chronic arteriopathy (B. Ennis) -- 26. Necrotic skin and diabetes (tbd) -- 27. Arteriovenous fistulae and vascular thief (tbd) -- 28. How to manage necrotic flap failure (R. Horch) -- 29. Kwashiorkor, HIV, and palliative care of necrotic nodes (tbd) -- 30. Haematomas (S. Meaume) -- 31. Necrotic and exposed tendon (L. Téot) -- 32. Necrotic skin covering osteosynthetic material (G. Jukema).- 33. Abdominal wall necrosis (O. Chappuis) -- Techniques applicable to skin necrosis -- 34. Dressings available to debride. The nurse domain (tbd) -- 35. Different regulations of nursing debridement depending on the country (K. Tanaka, N.L. Tomaselli, E. Ribal) -- 36. Surgical debridement (S. Akita) -- 37. Negative pressure therapy. A contraindication to skin necrosis (tbd) -- 38. Recent technologies in necrosis debridement (L. Téot) -- 39. Stabilisation of necrotic tissue using cerium nitrate silvesulfadiazine (C. Trial).

Sommario/riassunto

In recent years, wound care has gained increasing recognition as a distinct medical specialty. An understanding of the complex mechanisms involved in wound healing facilitates efficient assessment and treatment of patients with wounds, and skin necrosis can be considered the starting point in the entire healing process. This book is the first to discuss skin necrosis as a symptom related to a broad range of pathologies. Richly illustrated, it primarily provides therapeutic strategies and treatment algorithms for different clinical contexts. All chapters were written by renowned specialists in their respected fields and include detailed sample cases and essential take-home messages. In light of the highly interdisciplinary nature of wound management, Skin Necrosis offers an invaluable resource for wound care practitioners and health care professionals across the fields of surgery, dermatology, internal medicine, and nursing.
