Index

Sommario/riassunto

This unique book provides a rare look at social work and palliative care from the perspective of service users. Drawing on new original research, the authors examine service users' experiences, tracking their journeys through it, exploring the care they receive and the effects of culture and difference through their first hand comments and ideas.

Nota di contenuto

Foreword by Donna Stewart (Toronto) and Helen Herman (Australia) -- Introduction -- Generalised Anxiety Disorder -- Panic Disorder -- Social Anxiety Disorder -- Obsessive-compulsive and Related Disorders -- Trauma and Stressor-Related Disorders -- Anxiety disorders during pregnancy and lactation -- Anxiety and related disorders in women -- Anxiety and related disorders in men.

Sommario/riassunto

Anxiety and related disorders are common conditions that disproportionately affect women. In this book, the epidemiology, psychobiology, diagnosis, evaluation, pharmacotherapy, and psychotherapy of major anxiety and related disorders are examined with special reference to the effects of gender and sex on clinical presentation and treatment. The conditions considered include generalized anxiety disorder, obsessive-compulsive disorder, panic disorder, posttraumatic stress disorder, and social anxiety disorder. In addition, the management of anxiety and related disorders during pregnancy and lactation are discussed. Two concluding chapters specifically address anxiety disorders in women and in men, summarizing key points for clinicians and researchers. The authors are leading clinicians, including both psychiatrists and psychologists, from around the globe.
