| 1. Record Nr. | UNINA990009486440403321 |
| Titolo | City walls : the urban enceinte in global perspective / edited by James D. Tracy |
| Pubbl/distr/stampa | Cambridge : Cambridge University press, 2000 |
| ISBN | 978-0-521-12415-7 |
| Descrizione fisica | XIX, 697 p. : ill. ; 24 cm |
| Collana | Studies in comparative early modern history |
| Locazione | DARST |
| Collocazione | 18.376 |
| Lingua di pubblicazione | Inglese |
| Formato | Materiale a stampa |
| Livello bibliografico | Monografia |
| 2. Record Nr. | UNINA9910300222903321 |
| Titolo | Diagnosis of Small Lung Biopsy : An Integrated Approach // edited by Mostafa M. Fraig |
| Pubbl/distr/stampa | New York, NY : , : Springer New York : , : Imprint : Springer, , 2015 |
| ISBN | 1-4939-2575-X |
| Edizione | [1st ed. 2015.] |
| Descrizione fisica | 1 online resource (111 p.) |
| Disciplina | 610 616.07 616.2 616.2/40758 |
| Soggetti | Pathology Respiratory organs—Diseases Pneumology/Respiratory System |
| Lingua di pubblicazione | Inglese |
| Formato | Materiale a stampa |
| Livello bibliografico | Monografia |
| Note generali | Description based upon print version of record. |

Nota di bibliografia

Includes bibliographical references and index.

Nota di contenuto

Small Sample Lung Biopsy Techniques in the Diagnosis of Airway and Parenchymal Lung Diseases -- Principles of Imaging Lung Disease -- Types of Biopsies -- Air Space Occupying Diseases -- Interstitial Lung Diseases in Small Lung Biopsies -- Diagnosis of Granulomatous Disease and Vasculitis in Small Lung Biopsies -- Benign Tumors of the Lung in Small Lung Biopsies -- Malignant Tumors of the Lung in Small Lung Biopsies.

Sommario/riassunto

This volume provides a comprehensive review of the clinical, radiological and clinical aspects in the disease process. The text provides the general pathologist, clinician and pulmonary pathologist with a framework on how to work up a case of either non-neoplastic or neoplastic lung disease and provide clinically relevant information to all involved in patient care. The basic understanding of radiologic findings and what they mean or how they are related to clinical and pathologic findings is addressed in detail. The implications of descriptive and diagnostic terms as well as the criteria for diagnosis and limitations of small biopsies is explained. The new entities in lung pathology whether neoplastic or non-neoplastic are defined and characterized. The special techniques of pulmonary cytopathology, immunohistochemistry and molecular testing are outlined and specific algorithms for using them also defined. Diagnosis of Small Lung Biopsy: An Integrated Approach will serve as a very useful resource for practicing pathologists, clinicians and those in training with interest in pulmonary pathology and pulmonary medicine.
