

1. Record Nr.	UNINA9910300228703321
Titolo	Gastrointestinal Surgery : Management of Complex Perioperative Complications // edited by Timothy M. Pawlik, Shishir K. Maithel, Nipun B. Merchant
Pubbl/distr/stampa	New York, NY : , : Springer New York : , : Imprint : Springer, , 2015
ISBN	1-4939-2223-8
Edizione	[1st ed. 2015.]
Descrizione fisica	1 online resource (479 p.)
Disciplina	610 617 617.54059 617.555
Soggetti	Surgery Thoracic surgery Rectum—Surgery General Surgery Thoracic Surgery Colorectal Surgery
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Tracheo-esophageal Fistula -- Esophageal strictures refractory to endoscopic dilatation -- Esophageal anastomotic leak -- Transhiatal esophagectomy: intraoperative disasters -- Chyle leak after esophageal surgery -- Management of airway, hoarseness and vocal cord dysfunction after esophagectomy -- Severe reflux induced esophagitis -- Intraoperative solutions for gastric conduit that will not reach -- Injury to the right gastroepiploic artery -- Intraoperative solutions for ischemic gastric conduit -- Jejunal feeding tube complications -- Bile reflux and gastroparesis -- Gastric surgery: dealing with dumping syndrome -- Afferent loop syndrome -- Duodenal stump blowout -- Postoperative complications after surgery for gastric cancer: Anastomotic leakage -- Hepatobiliary and pancreatic surgery: postoperative hepatic insufficiency -- Biliary leaks and thoracobiliary fistula -- Contralateral bile duct injury during hepatic

resection -- Massive Intra-operative Hemorrhage During Hepato-Biliary and Pancreatic Surgery -- Hepatobiliary and Pancreatic Surgery: Intraoperative injury to Hepatic Arterial Structures -- Hepatobiliary and pancreatic surgery: hepatic abscess -- Hepaticojejunostomy anastomotic strictures -- Stricture at Pancreatico-Jejunostomy or Pancreatico-Gastrostomy -- Postoperative Portal, Mesenteric and Splenic Vein Thrombosis -- Post-pancreatectomy Hemorrhage: Early and Late -- Major Disruptions of Pancreaticojejunostomy -- Persistent Pancreatic Fistula -- Management of Chyle Leaks Following Pancreatic Resection -- Hepatobiliary and Pancreatic Surgery: Preventing Pancreatic Fistula following Distal Pancreatectomy -- Pearls for the Small Bowel and Colon That Will Not Reach -- Anastomotic Leak / Pelvic Abscess -- Management of Anastomotic Stricture -- Colorectal Surgery: Intraoperative Ureteral Injury -- Colorectal surgery: Prostatic Urethral Injury -- Vaginal Injury During Stapled -- Anastomosis -- Management of rectovaginal fistula -- Management of Presacral / Pelvic Bleeding -- Breakdown / Nonhealing of Perineal Wound -- Complications after TEM (Transanal Endoscopic Microsurgery) and TAMIS Maria -- Parastomal hernia -- Stoma Retraction/Ischemia/Stenosis -- Incontinence after Lateral Internal Sphincterotomy/ Fistulotomy -- Anal Stenosis after Hemorrhoidectomy: Avoidance and Management -- Delivering Bad News: Conversations with My Surgeon.

Sommario/riassunto

While surgical management of thoracic, hepato-pancreato-biliary, and colorectal diseases continues to evolve, morbidity continues to be a persistent problem. This book provides a comprehensive, state-of-the-art, definitive reference for the diagnosis and management of difficult-to-manage complications following advanced gastrointestinal surgery. All chapters are written by experts in their field and include the most up-to-date clinical information from national and world leaders in their respective disciplines. The text provides a practical, clinically useful guide that reviews risk factors for these complications and offers key information on how to avoid potentially high morbidity events in the peri-operative period. It also discusses the management of these problems when they do occur. With its helpful guidelines and “tricks of the trade” to avoid potential complications, this book is essential to all medical professions treating such patients. Gastrointestinal Surgery: Management of Complex Perioperative Complications is of great value and utility for general surgeons, thoracic surgeons, upper gastrointestinal surgeons, colorectal surgeons, hepato-pancreato-biliary surgeons, surgical oncology fellows, thoracic surgery fellows and upper level residents in general surgery.
