

1. Record Nr.	UNINA9910300229903321
Titolo	Elbow Ulnar Collateral Ligament Injury : A Guide to Diagnosis and Treatment // edited by Joshua S. Dines, David W. Altchek
Pubbl/distr/stampa	New York, NY : , : Springer US : , : Imprint : Springer, , 2015
ISBN	1-4899-7540-3
Edizione	[1st ed. 2015.]
Descrizione fisica	1 online resource (281 p.)
Disciplina	610 616.7 617.03 617.1027
Soggetti	Sports medicine Orthopedics Rehabilitation Sports Medicine
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references at the end of each chapters and index.
Nota di contenuto	Clinically Relevant Elbow Anatomy and Surgical Approaches -- Ulnar Collateral Ligament: Throwing Biomechanics -- Valgus Extension Overload -- Ulnohumeral Chondral and Ligamentous Overload -- Epidemiology of Elbow Ulnar Collateral Ligament Injuries -- History and Physical Exam on the Thrower's Elbow -- Radiographic Imaging of the Elbow -- MR Imaging in Patients with Ulnar Collateral Ligament Injury -- Ultrasound Imaging of Ulnar Collateral Ligament Injury -- The Conservative Treatment of Ulnar Collateral Ligament Injuries -- Injections Including Platelet Rich Plasma -- Ulnar Collateral Ligament Reconstruction: Graft Selection and Harvest Technique -- Primary Repair of Ulnar Collateral Ligament Injuries of the Elbow -- The Role of Arthroscopy in Athletes with Ulnar Collateral Ligament Injuries -- Biomechanics of Reconstruction Constructs -- Figure of 8 Technique and Outcomes -- Ulnar Collateral Ligament Reconstruction: Docking Technique -- American Sports Medicine Institute Techniques and Outcomes -- Ulnar Collateral Ligament Reconstruction: Alternative

Surgical Techniques -- Combined Flexor-Pronator Mass and Ulnar Collateral Ligament Injuries -- Ulnar Nerve Issues in Throwing Athletes -- Revision Ulnar Collateral Ligament Reconstruction -- Ulnar Collateral Ligament Injuries in High School-Aged Athletes -- Ulnar Collateral Ligament Injury in Female Athletes -- Complications of Ulnar Collateral Ligament Repair -- Sports Specific Outcomes for Ulnar Collateral Ligament Reconstruction -- Rehabilitation of the Overhead Athlete's Elbow -- Sport Specific Rehabilitation after Ulnar Collateral Ligament Surgery.

Sommario/riassunto

Presenting a comprehensive discussion of the biomechanics, assessment, diagnosis and management of injuries to the elbow ulnar collateral ligament (UCL), including video clips of selected surgical techniques, this is a thorough and practical text for any clinician seeing athletes with this increasingly common injury. The book is organized thematically, beginning with anatomy and biomechanics of the ligament. Diagnosis of these injuries follows, with chapters focusing on both physical exam tests and imaging studies. Chapters on both conservative treatment and surgical approaches form the heart of the text, including revision surgery and complications, and review the variety of techniques and expected outcomes. Additionally, individual chapters are devoted to the female and high school-aged athlete. Proper rehabilitation is essential and rounds out the text, including a unique focus on sports-specific rehabilitation. Written and edited by top clinicians in orthopedics and sports medicine, this book is an essential reference for diagnosing and treating injuries to the elbow UCL.
