

1. Record Nr.	UNINA9910300230003321
Titolo	Difficult and Complicated Cases in Refractive Surgery / / edited by Jorge L. Alió, Dimitri T. Azar, Alessandro Abbouda, Amr El Aswad
Pubbl/distr/stampa	Berlin, Heidelberg : , : Springer Berlin Heidelberg : , : Imprint : Springer, , 2015
ISBN	3-642-55238-2
Edizione	[1st ed. 2015.]
Descrizione fisica	1 online resource (444 p.)
Disciplina	617.7 617.701
Soggetti	Ophthalmology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references at the end of each chapters.
Nota di contenuto	Refractive Laser Treatment Plan -- Intraoperative Complications -- Early Postoperative Complications -- Late Postoperative Complications -- Optic Neuropathy and Retinal Complications after Refractive Surgery -- Complications of Refractive Keratotomy -- Phakic Intraocular Lens Complications -- Refractive Lens Exchange -- Retinal Detachment -- Choroidal Neovascularization -- Refractive Surprises after Cataract Post-Corneal Refractive Surgery -- Complications of Radial Keratotomy and Conductive Keratoplasty -- Complications of Intrastromal Corneal Ring Segments -- Complications of Corneal Cross Linking -- Corneal Inlays.
Sommario/riassunto	This richly illustrated book is intended as a gold standard for the refractive surgeon. It complements the authors' successful previous book, Management of Complications in Refractive Surgery, by providing detailed practical information on the management of specific cases. Worldwide leaders in the field document a wide range of challenging cases drawn from their own clinical practice. These cases relate to the planning of refractive laser treatment; intraoperative complications when using LASIK (Microkeratome and Femtosecond) and various surface treatments, including PRK, PTK, and EpiLASIK; early and late postoperative complications with these treatments; and a range of other complications that may arise during or after refractive surgery. This book will be an indispensable aid for the refractive surgeon and

will assist in decision making when the surgeon is confronted by a difficult case.
