

1. Record Nr.	UNINA9910300232203321
Autore	Rubayi Salah
Titolo	Reconstructive Plastic Surgery of Pressure Ulcers // by Salah Rubayi
Pubbl/distr/stampa	Berlin, Heidelberg : , : Springer Berlin Heidelberg : , : Imprint : Springer, , 2015
ISBN	3-662-45358-4
Edizione	[1st ed. 2015.]
Descrizione fisica	1 online resource (291 p.)
Disciplina	610 612.67 616.7 617 617.03 617.48 617952 618.97
Soggetti	Plastic surgery Surgery Orthopedics Neurosurgery Geriatrics Rehabilitation medicine Plastic Surgery General Surgery Geriatrics/Gerontology Rehabilitation Medicine
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references at the end of each chapters and index.
Nota di contenuto	History of Pressure Ulcer Management -- Pathology of Pressure Ulcer -- Clinical Wound Evaluation -- General and Special Investigation -- Patient's Psycho-Social Evaluation -- Pre-Operative Preparation -- Operative Management -- Ischial Ulcer -- Complex Ischial Ulcer -- Sacral Ulcer -- Trochanter Ulcer -- Multiple Flap Procedure as a Single

Stage Surgery -- Complex Pressure Ulcer -- The Heel Ulcer -- The Olecranon (elbow) Ulcer Flap -- Hip Joint Involvement with Pressure Ulcer -- Disarticulation and Total Thigh Flap -- Residual Stump Ulceration -- Knee Joint Ulceration -- Post Operative Flap Management -- Flap Complication -- Rehabilitation Post Flap Surgery.

Sommario/riassunto

This abundantly illustrated guide, based on work at the renowned Rancho Los Amigos National Rehabilitation Center, describes and depicts operative techniques for the treatment of the devastating wounds caused by pressure ulcers. Comprehensive information is provided on the surgical anatomy and the variety of wounds that may be encountered. In addition, interventions in patients with complicated ulcers are discussed. Pressure ulcer is a topic of growing importance in the fields of plastic surgery, surgical education, and physical therapy – and also has important psychosocial, medicolegal, and cost management implications. Readers will find *Reconstructive Plastic Surgery of Pressure Ulcer* to be an ideal aid to appropriate selection of flap surgery in the individual patient. It will help in the achievement of satisfactory outcomes and will especially assist surgeons who lack the requisite specialized training and experience.
