

1. Record Nr.	UNINA9910300241003321
Autore	O'Keefe Stephen J.D
Titolo	The Principles and Practice of Nutritional Support / / by Stephen J.D. O'Keefe
Pubbl/distr/stampa	New York, NY : , : Springer New York : , : Imprint : Springer, , 2015
ISBN	1-4939-1779-X
Edizione	[1st ed. 2015.]
Descrizione fisica	1 online resource (248 p.)
Disciplina	610 616.2 616.33 616028 617
Soggetti	Gastroenterology Surgery Critical care medicine Primary care (Medicine) Diet therapy General Surgery Intensive / Critical Care Medicine Primary Care Medicine Clinical Nutrition
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Cell Biology -- Physiology of Human Nutrition: Starvation and Obesity -- Physiology of Digestion and Absorption: the interdependence between food and the gut -- Pathophysiology: Nutrition in Illness -- Nutritional Support -- The Nutrition Support Team -- Key Principles for Nutritional Intervention -- Enteral Nutrition -- Parenteral Feeding -- Nutritional Support at Home -- Permanent Intestinal Failure and the Short Bowel Syndrome -- Small Bowel Transplantation -- Acute and Chronic Pancreatitis -- Liver Disease -- Renal Disease -- Nutrition Support in the Obese -- Nutritional Support in the Elderly.
Sommario/riassunto	This book provides the reader with an understanding of human

nutritional and metabolic physiology and how it goes wrong in illness. Divided into three major sections, the volume instructs the reader on how and when to use nutritional support, and includes a summary of the published outcome studies on the application of nutritional support to the management of common illnesses. In this way, the book supplies the reader with all the known information on how to make the best judgment of when, what and how to feed sick patients. Authored by a renowned expert in the field, *The Principles and Practice of Nutritional Support* is a valuable resource for gastroenterologists, surgeons, critical care physicians, endocrinologists, and all those involved with patient-care, both in hospital, in rehabilitation, or at home.
