

1. Record Nr.	UNINA9910300270803321
Autore	Moran Vicki
Titolo	Simulation: Best Practices in Nursing Education [[electronic resource] /] / by Vicki Moran, Rita Wunderlich, Cynthia Rubbelke
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2018
ISBN	3-319-89821-3
Edizione	[1st ed. 2018.]
Descrizione fisica	1 online resource (VIII, 54 p. 8 illus. in color.)
Disciplina	610.730711
Soggetti	Nursing—Study and teaching Surgery Obstetrics Nursing Education Obstetrics/Perinatology/Midwifery
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Chapter 1: Simulation in Nursing Education -- Chapter 2: Standards in Simulation -- Chapter 3: Simulation Environments -- Chapter 4: Developing Simulations -- Chapter 5: Implementing Simulations -- Chapter 6: Putting It All Together.
Sommario/riassunto	This book focuses on evidence-based standards for simulation in nursing education. The foundational principle of simulation excellence and its relevance to nursing is defined and infuses throughout the book. It also discusses necessary components for quality simulation from development to implementation. These areas include (but are not limited to): theoretical background, accreditation and approval standards, the simulation environment, developing and implementing simulations, and debriefing. These subject areas are approached following a thorough review of the literature and current practices identified from the International Nursing Association for Clinical Simulation and Learning (INACSL), Society for Simulation in Healthcare (SSH), National League for Nursing (NLN) and State Boards of Nursing. This quick reference title will become the best practice standards for simulation excellence in nursing education. .
