

1. Record Nr.	UNINA9910300288103321
Titolo	Critical Care Nutrition Therapy for Non-nutritionists // edited by Mette M. Berger
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2018
ISBN	3-319-58652-1
Edizione	[1st ed. 2018.]
Descrizione fisica	1 online resource (179 pages) : illustrations
Disciplina	616.025
Soggetti	Critical care medicine Neurology Cardiology Gastroenterology Emergency medicine Geriatric nursing Intensive / Critical Care Medicine Emergency Medicine Geriatric Care
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	General ICU patient -- Nutrition during prolonged hemodynamic instability -- ECMO patients -- Intestinal failure -- Brain injury and nutrition -- Burns (major) -- Obesity -- Acute Kidney Injury with and without renal replacement therapy -- Patient on non-invasive ventilation -- The very old patients -- Inborn Errors of Metabolism in Adults: Clues for nutritional management in ICU -- Nutrition and Metabolic Support in Chronic Critical Illness -- Practical aspects of nutrition.
Sommario/riassunto	This book offers a pragmatic approach to day-to-day metabolic and nutritional care based on physiological considerations. Due to the numerous controversial trials published in the last 15 years, there is no clear guidance for intensive care physicians regarding the metabolic and nutritional management of patients. This has resulted in a return to underfeeding and related complications in most ICUs worldwide as

shown by the latest Nutrition Day data. Using a structured, logical approach, the book examines practical solutions for artificial feeding in complex areas of critical care (brain injuries, burns, cardiac failure, ECMO, intestinal failure, long term patient, renal failure, metabolic diseases, obesity, old patients) and discusses measurement of the results of metabolic interventions. It also includes dedicated chapters focusing on specific problems, in order to avoid complications. Critical Care Nutrition Therapy for Non-nutritionists is a valuable resource for all general ICUs and ICU subspecialties such as cardiovascular, neuro, gastrointestinal and burns ICUs.
