Sommario/riassunto	This second edition of Historical Dictionary of Environmentalism contains a chronology, an introduction, and an extensive bibliography. The dictionary section has over 300 cross-referenced entries on important events, issues, organizations, ideas, and people shaping the direction of environmentalism worldwide. This book is an excellent access point for students, researchers, and anyone wanting to know more about environmentalism.

Sommario/riassunto	This handbook provides a quick, portable, algorithm-based guide to diagnosis and management of common problems seen in adult patients. Written by experienced primary care practitioners, the book emphasizes efficient decision making necessary in the fast-paced realm of the medical office. It covers general considerations such as the physical examination, care of special populations, and pain management and palliative care. It also focuses on common symptoms and disorders by system, including endocrine, respiratory, cardiac, orthopedic, neurologic, genitourinary, and gynecologic. For each

disorder, symptoms, red flags, algorithms for differential diagnosis, related symptoms and findings, laboratory workup, treatment guidelines, and clinical pearls are discussed. Handbook of Outpatient Medicine is a valuable resource for primary care physicians, residents, and medical students. .

Sommario/riassunto

The five-volume set LNCS 15572, 15573, 15574, 15575 and 15576 constitutes the refereed conference proceedings of the 47th European Conference on Information Retrieval, ECIR 2025, held in Lucca, Italy, during April 6–10, 2025. The 52 full papers, 11 findings, 42 short papers and 76 papers of other types presented in these proceedings were carefully reviewed and selected from 530 submissions. The accepted papers cover the state-of-the-art in information retrieval and recommender systems: user aspects, system and foundational aspects, artificial intelligence and machine learning, applications, evaluation, new social and technical challenges, and other topics of direct or indirect relevance to search and recommendation.
