

1. Record Nr.	UNISA990006185540203316
Autore	CARRILLO BATALLA, Tomás Enrique
Titolo	4.: : obra económica compilada, ordenada y comentada / Tomás Enrique Carrillo Batalla ; prólogo del Dr. Tulio Chiossone
Pubbl/distr/stampa	Caracas, : Acadademia Nacional de Ciencias Económicas, 1995
ISBN	980-323-079-4
Descrizione fisica	P. 691-982 ; 23 cm
Collana	Colección Historia de la legislación económica venezolana ; 2
Disciplina	336.87
Soggetti	Venezuela - Finanza pubblica - 1830-1848
Collocazione	VI.7.A. 81 4
Lingua di pubblicazione	Spagnolo
Formato	Materiale a stampa
Livello bibliografico	Monografia

2. Record Nr.	UNINA9910300296003321
Titolo	Saphenous Vein-Sparing Strategies in Chronic Venous Disease // edited by Paolo Zamboni, Erika Mendoza, Sergio Giancesini
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2018
ISBN	3-319-70638-1
Edizione	[1st ed. 2018.]
Descrizione fisica	1 online resource (291 pages)
Disciplina	616.1406
Soggetti	Blood-vessels - Surgery Veins - Diseases Angiology Dermatology Vascular Surgery Phlebology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Foreword -- Preface -- I Introduction to the Concept and Rationale of the Saphenous Sparing Strategies -- 1 General aspects -- II Anatomical and Diagnostic Basis -- 2 Anatomy of leg veins -- 3 Duplex-sonography of superficial leg -- III CHIVA -- 4 History of CHIVA and distribution over the world -- 5 Physiologic basics of CHIVA -- 6 CHIVA-Strategy -- 7 Documentation -- 8 The surgical intervention technique -- 9 Indications and Organization around the CHIVA Strategy -- 10 CHIVA in case of deep venous insufficiency -- 11 Results of CHIVA in Literature -- IV Other Saphenous vein sparing Strategies -- 12 Extraluminal Valvuloplasty -- 13 ASVAL -- V Possibilities to treat a patient in a modern phlebologic setting -- 14 Diagnostic and Therapeutic Ressources -- 15 Treatment options. .
Sommario/riassunto	This book is designed to equip the reader with a detailed knowledge of the pathophysiology of chronic venous disease and an understanding of the clinical benefits of restoring venous drainage by saphenous vein-sparing procedures, including minimization of invasiveness and reduction of the recurrence rate. All of the techniques currently

available for vein-sparing strategies, including novel endovenous options, are clearly described and illustrated, with explanation of the role and value of recent technical innovations. The reader is guided through the entire management process, starting from diagnosis and proceeding through evaluation of the individual patient's needs to the successful implementation of appropriate treatment. In addition, the literature on relevant diagnostic and therapeutic protocols is thoroughly reviewed, covering all significant publications to the present day. The content is kept as simple as possible to help those new to the field. At the same time, the deep insights into theoretical and technical aspects will support even the most advanced specialists in their everyday practice. .
